# ELECTION ANALYSIS

There are no such things as excuses in nature or National Socialism--which is the sociological manifestation of Nature. The young lion who dares to challenge the old "stud" lion and gets whipped is either killed or driven off into the bush to lick its wounds.

If the young lion survives its first encounter with the tough old boss of the group, it would be a very foolish young lion if it did not analyse the reason for its defeat and use the results to achieve victory next time.

In fact, that is Nature's precise method for enabling young lions to beat tough old ones.

The Party is still almost a new born cub lion in the business of elections. We went charging in there after the biggest and toughest old Jew lion in the world and put up all the scrap we had in us--but it was no where near enough. It would be the same suicidal folly for which I regularly berate the conservatives to deny that our approximately 7,000 votes in the Virginia elections were anything less than a beating by the Jews.

I should like to write some flowery paragraphs that it was a "moral victory", that we gained this and that, and that it was certainly not "our fault", etc.

But I cannot do that in good conscience. Such self-delusion might salve our own egos and perk up the loyal people who did all they could to help, but our goal is and must remain victory, and we will never achieve victory kidding ourselves.

I feel that I owe it to all the wonderful people who sacrificed and did so much to back our first campaign to give the best analysis I possibly can of why the Jews and kosher conservatives were able to hold us down to a little over 1% of the vote in Virginia.

It has taken me over two weeks to make this analysis in the midst of the physical and emotional exhaustion following the campaign--not to mention the relative chaos as many of the lads here try to catch up various personal duties with families, etc., which were completely neglected during the campaign.

I have divided the analysis into three sections: those acts or omissions by US which tended toward defeat; the acts or omissions of OTHERS tending toward defeat; and, finally, factors in the general situation tending toward defeat. Following this, I have appended a list of what was achieved during the campaign and a series of conclusions on what must be done in future elections so that next time it will be the old Jew lion lying dead or licking its wounds in the bushes.

## OUR MISTAKES

### A. Failure to reach sufficient voters.

#### (1) Rallies.

We were never able to turn out large numbers of people at any of our rallies, regardless of the excellence of our presentations. With no funds available for advertising on radio, in newspapers, etc., we tried to promote the rallies in each area by distributing pamphlets and with posters. With our small crew and broken down cars, the distributions were always inadequate and usually far too late. At every rally, I was told by enthusiastic hand-shakers afterwards, "It's too bad we didn't know about this sooner. I could have had a dozen more people".

#### (2) TV Programing.

(a) While our television shows were uniformly the most effective thing we did, producing tremendous results per dollar and per hour of effort expended, we were able to put on only three television shows in the whole state during the entire campaign while our opponents put on literally dozens of major TV shows during the best evening hours, etc. I am absolutely convinced that, had we had the funds for sufficient television coverage, we could have smashed the Jewish "blackout" and reached the voters.

(b) Once again, because of lack of funds, we were unable to give sufficient advance notice of our television broadcasts to insure that all those who would have liked to have seen them were able to tune in. And the Jews failed to "rise to our bait" as I had expected, and scream and moan about us on television to advertise for us.

(c) We had terrible luck on TV competition. For instance, in Norfolk, where we put on perhaps our best show and spent almost a thousand dollars on advertising and the TV time, the World Series baseball game went into several extra innings and was still on when our TV show began. The show was taped (on video tape) and I watched the show myself from a service station where we plugged the camper in and watched on my portable television. Meanwhile, the service station people, who were very sympathetic to us, openly congratulating me, etc., WATCHED THE WORLD SERIES INSIDE THE STATION ON THEIR TELEVISION! Our workers in the Norfolk area told us the same thing. Everywhere, our kind of people were watching the World Series!

(3) LITERATURE

There can be no question that our printed platform and promotional piece was about as good as any folks had seen anywhere. We have had the most extravagant compliments on the piece from all over the country so that I doubt there was anything seriously wrong with our platform. However, we were able to print, fold and distribute only about 100,000 of these pieces to reach more than a million voters, and it must be remembered that it is impossible to distribute the piece to voters only, so that probably only half of our platforms, or about 50,000--perhaps even fewer, actually reached potential voters. In addition, because of our broken down cars and tiny "staff" there were vast areas of the state never even penetrated with rallies, literature or anything else.

(4) General Promotion.

We had no campaign buttons. We had no posters. We had no sound trucks. We had no civic meetings, barbecues and that sort of thing. We had no college or business speeches. We had no billboards. We had no direct mail. We had no public displays, except one booth at the Richmond Fair which was stopped after an injunction was issued against us by the NAACP. We had no hats, gimmicks, baloons, or any of that sort of thing. We could afford less than 1,000 bumper stickers, and many of these were grabbed up by souvenir hunters and collectors around here so that, practically speaking, we had no bumper stickers at all. We had no doorbell ringers. We had no poll watchers. And finally, we had no promotional operations, as did all the other candidates, at the polls themselves, except in Arlington.

(5) Campaign Management.

While my Campaign Manager, Robert Lloyd, almost broke down his health working and struggling, with our monumental lack of funds and facilities, I was forced to do much of the actual work myself which made it difficult or impossible for me to make the sort of campaign appearances which should be made by candidates.

I. Too much optimism. I have many times preached the idiocy of much of the rightwing in presuming they could "sneak up" on the Jews with some sort of plan which would enable them to get into power without ever facing up to and fighting the basic Jewish question and facing Jewish terrorism.

And yet I myself fell victim to the same illusion that we might be able to get elected to power in Virginia simply because conditions were so ideal and perfect for such a move. The Jews have no intention of permitting anybody to win STATE POWER by any method at all without putting up an all-out fight to stop it.

I recognize that most of these failures were directly caused by lack of funds, in spite of the heroic sacrifice of our inner circle of dedicated fighters. However, just as in Nature there is no excuse available to the young lion who fails to whip the old one, and it makes no difference that the young lion may be hungry or weak, I cannot shift the blame to anybody else because our campaign was run almost entirely on hope, guts, and a few shreds of a shoestring.

II. Acts or omissions of others tending toward defeat.

## Blackout!

When I launched the campaign, I truly believed the Jews simply COULD NOT black out such a sensational and newsworthy fact from the consciousness not only of the country but of Virginians. But the brutal fact is that the Jews and their kosher conservative allies were able to do precisely that. During the entire campaign, almost no mention was ever made of the fact that I was running at ALL! When the fact was mentioned at the bottom of some long column and that sort of thing, it was mentioned in a way to indicate that nobody really took the candidacy seriously and we were "beneath notice".

I was prepared for this approach and figured that our usual dramatic tactics would smash it to bits. At the Richmond Fair, where we had a very dramatic booth which was without question the most popular in the area, we did manage to get a fight going on the race issue and a direct confrontation between black and white which would eventually have won us the election. The niggers became hysterical, ran into court and demanded an injunction and I figured we had it made. In the course of fighting the injunction, the whole state would be forced to take sides, including the other candidates, and there is no question on which side Virginia voters would be with me fighting the NAACP. However, realizing this, the Jews stepped in and were able to get the NAACP to drop the suit in dead silence, and there was no mention of it whatsoever in the press, on TV, etc. Our publicity releases were ignored. Time and again, our young lads made heroic demonstrations at the speeches and activity of the other candidates, often going to jail, only to be blacked out of all mention in press and TV. Capt. Patler was almost killed when he was thrown off a platform. Young Douglas Niles, who did the great job of the red paint on the peace creeps in Washington, tore up the banquet at the NAACP state convention in Roanoke, and made a little publicity, but everything else we did was simply and brutally blacked out.

We did not have the funds to reach people with paid advertising, television, etc., and I hoped to make up the deficiency with combat publicity. The Jews showed the most fantastic discipline I have ever seen and countered every move we made in this direction.

In the whole six years we have been fighting, I have NEVER experienced such a brutal censorship of public news as the Jews were able to impose on the state of Virginia during this election. There is no question in my mind but that this monstrous and un-American censorship of all news about us in Virginia was the major contributing factor in the results of the election.

(B) Enemy promotion of the Conservatives.

A tell-tale clue to the silent Jew fight against us was the reaction in Virginia to the candidacy of John Birch stalwart, William Story, for Governor. All over the country, wherever a Bircher has run for office, the Jews have been almost hysterical in their denunciations and ravings about the fascist beast, etc. Here in Virginia, I saw almost no denunciation whatsoever of Mr. Story along this line and, on the contrary, considerable praise for his "responsible stand"!

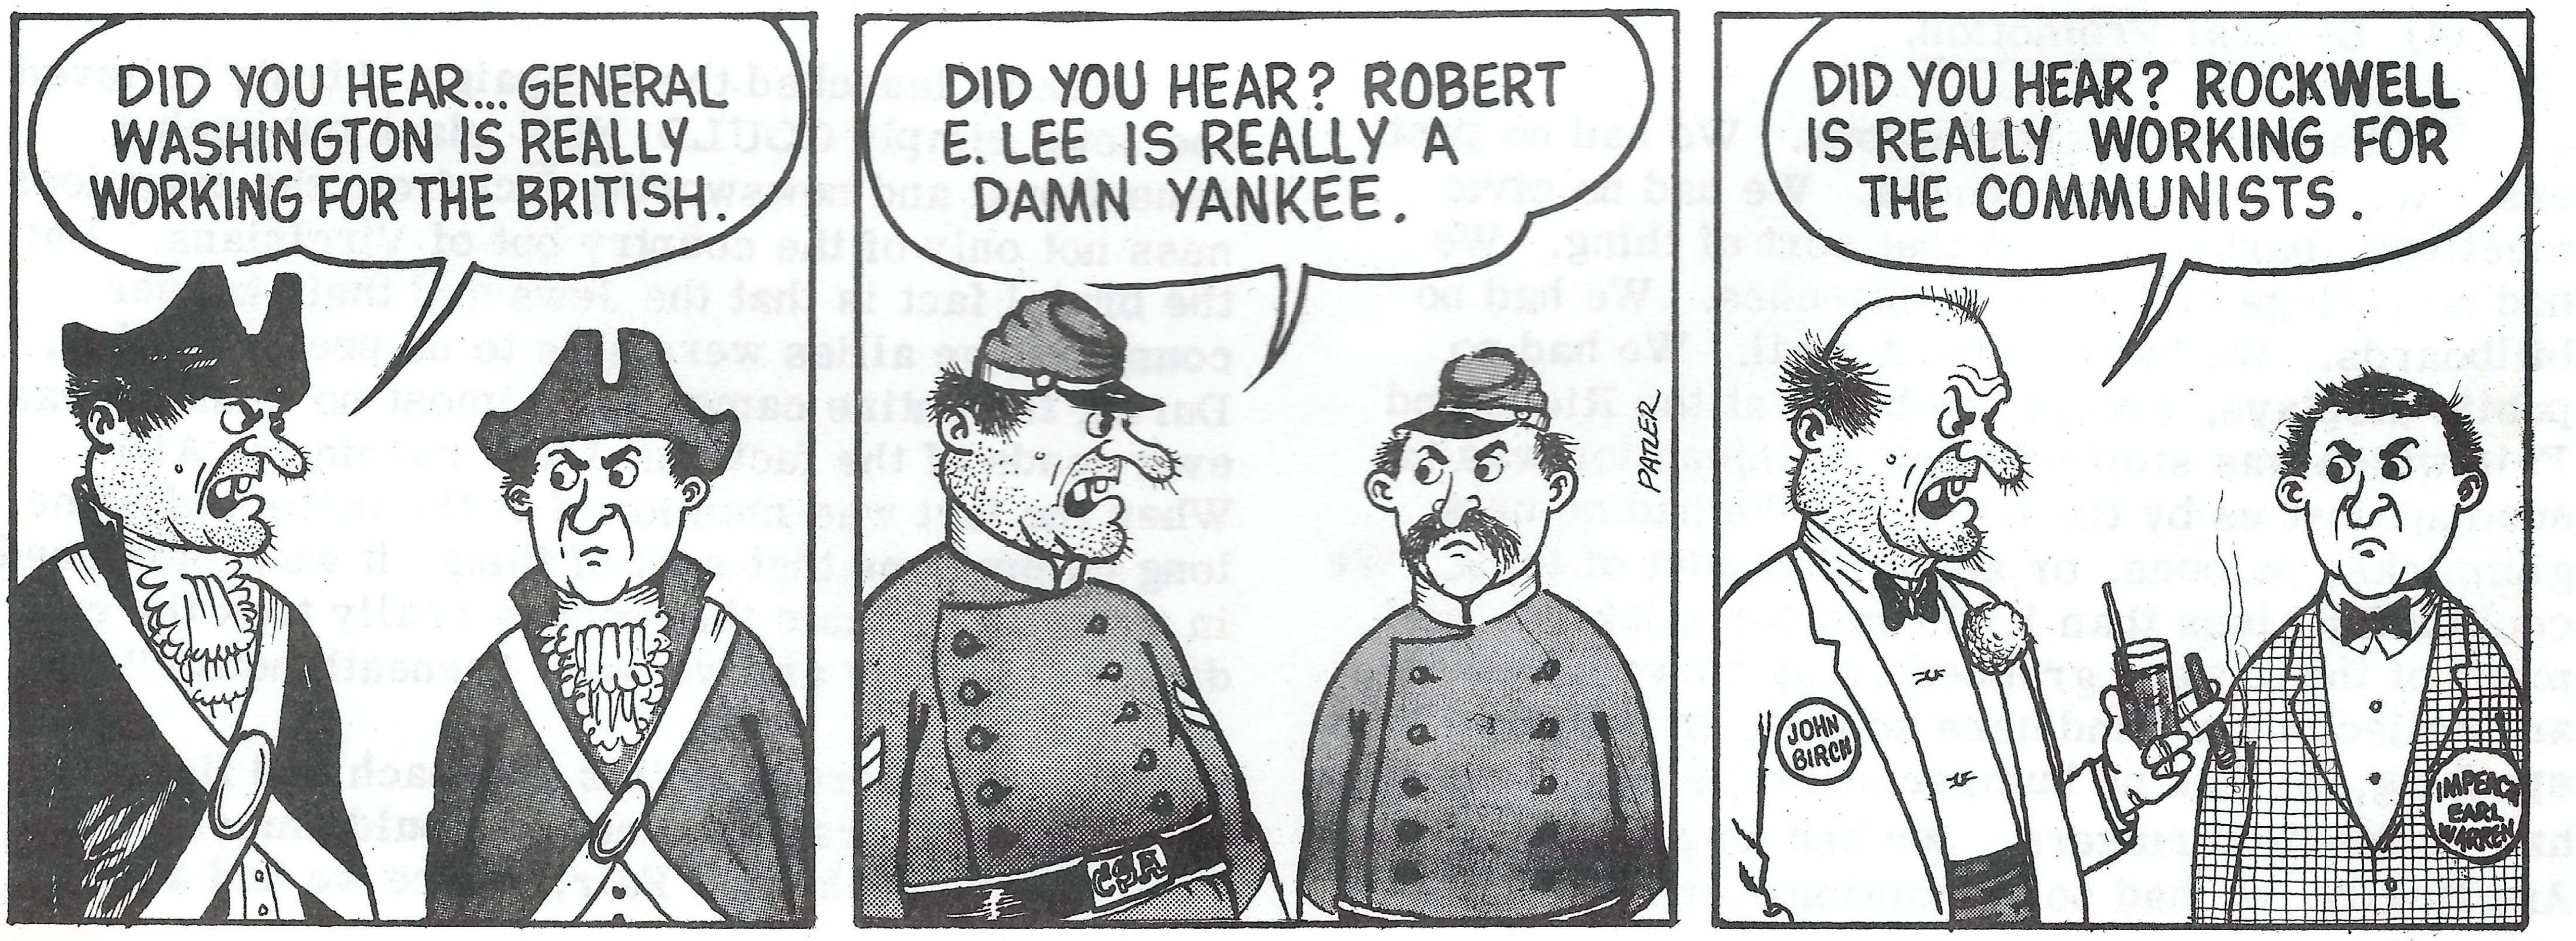
Story was given FREE television time all over the state, even in Washington, D. C., and even on the most pro-Red and race-mixing television station, such as WTOP in Washington, owned by Agnes Myers of the Washington Post (often called the Washington edition of the Daily Worker by Joe McCarthy). All media, including newspapers, covered almost everything that Story said or did even while blacking us out.

Perhaps most significant, all the media went to great lengths to drive into public consciousness that Story was a big "segregationist" and a bitter enemy of the niggers, even though Story himself was publicly disowning the Klan and proclaiming his brotherhood tolerance, etc.

(C) Slander by kosher conservatives.

I sent many of our workers over to conservative headquarters in various areas to pitch in a little bit and gently ask about "this feller Rockwell". In almost every case, they were told that "Rockwell is a Communist agent provocateur". In Lynchburg, where we held our first rally, hundreds of people were told that we were Communists trying to ensnare honest conservatives and further, that the niggers had arranged a huge riot for our rally and anybody who attended would likely be jailed or injured.

**Did You Hear?**



DID YOU HEAR... GENERAL WASHINGTON IS REALLY WORKING FOR THE BRITISH.
DID YOU HEAR? ROBERT E. LEE IS REALLY A DAMN YANKEE.
CSA
PATLER
DID YOU HEAR? ROCKWELL IS REALLY WORKING FOR THE COMMUNISTS.
JOHN BIRCH
IMPEACH EARL WARREN

Meanwhile, of course, the national conservative organizations have never ceased their damnable lying that we are Communist agents provocateur. (See article on this subject elsewhere in this issue.)

(D) Habit and inertia of voters.

After the elections, I querried all our leading election workers in all areas as to the results. In every case they responded that, although people were very favorable toward us, they felt that there was a good possibility that I was so radical I would get a "war" started with the niggers and Federal Government, and they wanted to avoid this. More important, they tended to be so "conservative" (not politically speaking), that they could not break the HABIT of voting for one of the old parties, especially the Democrats.

Under this heading, finally, I observed myself that the great majority of the kind of people who were openly sympathetic and favorable to my candidacy were also the kind of people who probably failed to register or, if they were registered, failed to vote.

The liberals, of course, would never be for me. Neither would the kosher conservatives be for me. Our kind of people, and the kind of people we must win, are the farmers, the working people and the ordinary "folks" who make up the masses of Americans.

The niggers, in order to pile up their huge votes, have to practically herd their people to the registration desks, and then kidnap them and drag them to the voting booths.

Our kind of people, I believe, are "direct action" types who have a hard time seeing the value of registering and voting and much prefer to lay a two-by-four along side the head of the nearest nigger agitator.

(E) Competition.

I was told, most confidentially, by a member of the "conservative" camp, that Story ran, not of his own volition, but upon the urging of Robert Welch, who held, it is alleged, a top emergency meeting the day after I was able to file in Virginia and who raved "It would be a catastrophe if Rockwell won in Virginia!" Whatever the reason, huge sums of money poured into the Birch campaign in Virginia so that Story was able to buy not only full page ads in the newspapers, but double-page spreads--and on television his schedule was simply fantastic. In Richmond, where I was able to put on one single TV show at a cost of about a thousand dollars on a Sunday afternoon, Welch's boy bought Class AA, prime evening television time on BOTH stations every night in the week toward the end of the election. This cost a fantastic amount of money, and it was repeated all over Virginia!

In addition to this sort of competition for votes, the competition was overwhelming for money. Had Story stayed out of it after I was able to file, we would have been able to raise the money I expected from Virginia businessmen. But, as usual, most businessmen keep hoping for an "easy way" and poured the money in to the Birch candidacy because mine was "too dangerous".

(F) Vote stealing.

I refuse and still refuse to believe there was any wholesale vote stealing, although we do have what appears to be absolute proof that there was some of it. A responsible older man in Yorktown, Virginia, called us in outrage to report that he had voted for us in this small town and that the printed tabulation of votes in his town showed NO votes--ZERO--for us, in spite of the vote he knew he cast. When it is considered that only under such rare circumstances, where we got NO votes and somebody was brave enough to call us and inform us that he had voted for us--the only way we could know of irregularities--it is conceivable that a great number of votes could have been stolen from us in all other areas without our knowledge. We got some votes almost everywhere and in many places beat the Bircher, but only in places where we got zero votes and there is a particularly courageous person to report his own vote, could we know of such a situation.

Further, we were informed by the State Election Board that, while all other candidates would be allowed to have poll watchers WE WERE FORBIDDEN TO HAVE SUCH POLL WATCHERS! --Seems funny, some how!

(G) Lack of Machine

Because of the general fear of the Jews--and niggers--even though we had tremendous numbers of friends all over the state, it was almost impossible for us to build up a working "machine" since people were afraid to be publicly identified. And without a working machine almost everywhere, it is mighty hard to mount a real hard-hitting campaign.

(H) Endorsement of Birchers by the Klan.

All during the campaign, I was told by Klansmen that they were pushing my candidacy. I never hid my admiration for the aims of the Klan, even though I disagreed on their tactics. And yet, in the last few days before the election, the Virginia Klan leader came out all of a sudden, and with tremendous publicity provided by the Jews, and endorsed the Conservative!

III. Factors and general situations tending toward defeat.

(A) Timing. I think this is perhaps THE single most important difficulty we faced and still face. We are a radical, counter-revolutionary organization with a radical and powerful solution for a radical situation. The people at this time still do not see the situation is radical and fear a radical organization with a counter-revolutionary approach. Particularly in Virginia, where there has been no serious Communist or racial activity in the last two years, and where the niggers are relatively peaceful, it is difficult for the people to accept a real, all-out solution for a problem they see as only moderate. This is a matter of TIMING. The situation all over the United States is deteriorating rapidly. First the Birch Society rose as the apparent solution, and I believe it is fading away now as the solution becomes much too radical for the Birch Society and the Klan is rising as the apparent solution. I think the Klan will also fade away since they have no positive program and nothing but a defensive, terroristic approach which really doesn't work in the long run. The only organization with a positive and radical program to get to the ROOT of the trouble and really DO something radical in a radical situation, is the Nazi Party. When the time is ripe, nothing can stop us. Until the time is ripe, until economic catastrophe and social chaos hits us as happened in Germany, we will have to be content to build our image and gain small victories here and there until the people are READY.

(B) Prosperity.

Nobody makes revolutions with a full stomach, two cars in the garage, color television, etc.

Hitler made almost no progress, and in fact saw his movement dwindle, until the situation in Germany reached economic collapse, social chaos and the rise of terrorist Bolsheviks in the streets.

All these things are coming here in America--faster and faster--but they are still not here--especially in Virginia! People are simply too fat, soft and satisfied to take a chance on such political spartans and fighters as we are--yet.

To sum up, we made several serious mistakes in running in this election, chief among which was a false optimism that the Jews would ever allow us to make use of the ideal situation which prevailed when I first filed for the ballot to win state power. Secondly, I expected that the Jew fight would take the

# Rockwell Gets 6,312 Votes In Bid For Governor of Virginia

RICHMOND, VA., (JTA)—American Nazi Party leader George Lincoln Rockwell won at least 6,312 votes—more than one percent of the total ballots cast—in his unsuccessful bid for the Governorship of Virginia.

Surprise was voiced in some quarters, that Rockwell, whose Nazism is notorious throughout the state, was able to poll that many votes when right-wing Virginians rallied behind the Conservative Party's William J. Story, a militant segregationist and member of the John Birch Society. Mr. Story obtained at least 69,348 votes. The election was won by Lt. Gov. Mills E. Godwin by a comfortable margin.

form of the usual hysteria. Brilliantly, the Jews refused to accommodate me, and instead applied an un-American censorship and blackout of news such as I did not believe possible.

I know better now, and can base future plans on an accurate knowledge of what these liars and suppressors are actually able to do.

All in all we gained a tremendous amount of STATURE and RESPECTABILITY by being on the Virginia ballot and the next time we come charging out of the bush at that old and ugly Jew lion, you may be sure he won't find us so innocent and easy in the next fight.

To wrap up the story of the election, I will reprint the Jew reaction. Here's a photographic reproduction of the article in the Jew Press of New York.

Veteran Jew-fighters will be able to read between the lines of this article, and FEEL the Jew horror at the size of our vote.

We tend to forget that just a few years ago, not one of us would have believed a "NAZI" could get ANY votes, -let alone one out of every hundred cast in the state of Virginia!

Then there is one more very subtle point to be perceived in the Jew article.

Notice that the Jews are surprised, they say, at the fact that we got more than one per cent of the vote IN SPITE OF the fact that "Conservatives rallied around Story, an avowed segregationist", etc etc.

One of the top men in the "Conservative" camp here told me that Story had no intention of running until after I filed. On that day, Robert Welch, says my informant, held an emergency meeting in Belmont and moaned, "It would be a catastrophe if Rockwell won in Virginia!" (And it would be for such as Welch and his lies).

So Welch instigated and financed Story to SPLIT THE WHITE VOTE AGAIN!

In view of Welch's statement, (in the California Report), that he works closely with the Anti-Defamation League of B'nai B'rith to "suppress Anti-Semitism", can any informed patriot doubt the REAL reason for Story's sudden candidacy and the huge funds he was able to fling around?

I have asked one of our ex-Birchers, formerly of Welch's "inner circle", to research and produce the TRUE story of the Birch Society, with the startling facts of the Jews who promoted and inspired it, as I have long suspected, but could not prove until this ex-Bircher gave me chapter and verse. This amazing and shocking, documented expose will be in the next ROCKWELL REPORT.

# The Burros Business

The last three days since Dan Burros shot himself have been pretty wild here. The calls and interviews from Life, Newsweek, the Networks and all the papers, it seems, in the world, have kept our phones ringing night and day, -until I called a press conference to deal with the situation in an orderly and efficient manner. The results will probab-

ly have been published by the time this **ROCKWELL REPORT** reaches you, and God alone knows what atrocities will appear in such rags as Life and the rest of the Jew and nigger-loving journals of the world.

Just to present the facts to OUR people, I will therefore print a resume of the whole Burros affair.

Burros appeared here one day in early 1960 on a visit from New York City. He was an avid collector of German and Nazi '"souvenirs", and came down to see what he could gather up. He had been corresponding with James Warner, and the two of them hit it off pretty well during the visit. Burros was hypnotized by the sight of LIVE Nazis -in UNIFORMS, --he just HAD to be one, too. So he applied for membership and filled out the ten-page, notarized application blank, swearing that his parents and relatives were all pure "Germans".

After a few visits, he decided to join full time and moved into the miserable life at the HQ, when we had about fifteen people living there, sleeping all over the floors, in cars, etc. But Burros was a chow hound such as I have not seen even in the Navy. Whenever he would gather up some money from home or otherwise, he would rush out for a steak, and sometimes two. The steady diet at HQ was chicken-backs and beans, and this really "got" old Dan. We learned that he had been sent to the Army headshrinker for sadistic tendencies and Nazi leanings, --apparently he had read and believed the Jewish propaganda that Nazis are SUPPOSED to be cruel and vicious torturers, etc. He had strangled the mascot of the 101st Airborne Division of which he had been a member, -bare-handedly throttling the young eagle. At HQ, he was often caught trying to strangle the Party dog, Gas Chamber, which earned him a lot of hatred from other members, particularly the Deputy Commander at the time, J. V. Morgan, a real lover of animals,

He would spend hours gleefully describing the various tortures he had invented for the Jews, and his masterpiece was what he called a "torture organ" --wires inserted into all tender portions of the victim's body, connected to a sort of piano keyboard and variable electric currents, so that Burros could then "play" the organ and make the victim scream in various keys. He also collected all kinds of pornography, and I regularly had to search him and make him get rid of this vicious and dangerous stuff, which could badly hurt the Party if he were caught with such filth.

In spite of these aberrations, he was really a brilliant young man, and hugely dedicated to the Cause, there was no doubt of that then, and no doubt of it now. He contributed all wages he possibly could -aside from steak money --and he worked like a Trojan as a printer. In those days, I was in no position to be too choosey about personnel so long only as I felt reasonably sure they were not dangerous in the violent sense, which Burros was not. He was almost all talk, as we learned later when he stepped out back for one of the fist fights which are common here, and did nothing but circle around his intended victim with one arm cocked clear back to the ground, like a fiddler-crab with one claw. After ten minutes of this comedy, Burros rushed over to me, came to attention, (he was "ape" about military etiquette), and said, "Sir, request permission to wrestle him, he won't let me get near enough to fight him!"

He considered himself a master-spy-type, and kept demanding to be invested with the powers of our official "SS POLICE SPY" and Gestapo boss, (which melodramatics I don't permit around here).

Dissatisfied at the lack of musical-comedy--type "Nazism" here, at the diet of chicken-backs and beans, at the endless hard work, the cold and other miseries, he began to plot with another man to desert and start their own "Nazi" Party. He stole his own and another sworn application, (which he was able to do since he had been a National Secretary), crawled out of a second-story window one night, and slipped up to New York City, which he really loved. (And which I now understand, since learning of his real descent).

In New York, Burros published a magazine called "KILL!" full of blood and terror and demands for "mountains of corpses", etc. --and also full of denunciations of me and the American Nazi Party.

The other lad who left with Burros soon found out what he really was, and came back here in a most honorable manner. Burros didn't have the nerve to do that, but began to write abject apologies to me, and beg to be reinstated as a Party member.

He had meanwhile gotten involved with James Madole and the National Renaissance Party in New York, and got caught with a copy of "Eros" filthy magazine, and a charge of riot, arms, etc, which sent him off to Sing Sing for a while. I felt sorry for him, and after getting a new application, gave him a Party card back as a sort of gesture, although we wanted no part of Burros here.

No sooner had I done this, than Frederick Charles Weiss, whom I believe to be working with the ADL, began to finance Burros in the publication of "The Free American", which purported to be an unofficial organ of the Nazi Party. I had to take some strong measures to get this stopped, and he printed a notice that there was no official connection between his paper and this Party.

At the time of his death, Burros was still publishing his "Free American" all covered with swastikas and adulation of the Germans, etc. was a member of the American Nazi Party, Madole's group, (I believe), and also acting as the Kleagle or Dragon of the Klan in New York.

The Klan has issued a statement damning the House Committee for Burros death. Although I must agree the Committee has fallen under the influence of Weltner and the Jews, and is to be condemned for harassing the Klan while the niggers are organizing bloody uprisings and murdering, raping and looting in Los Angeles without any investigation --I must disagree with Mr. Shelton on why Mr. Burros is dead.

When a man joins such relatively "desperate" and fanatical organizations as the ANP, the KLAN, Madole, etc, and publishes a magazine called "KILL!" dedicated to the murder of ALL the Jews, etc. and when he voluntarily and eagerly seeks the mantle of Klan leadership in such a state as New York, and such a "city" as New York, -he must EXPECT to have any tiny blemish in his past used to smear him any way the Jews can do it.

For a man as brilliant as Burros not to have foreseen the day when he would read about his Bar Mitzvah and his synagogue days all spread in the nation's press is to presume the impossible. The wonder to me is that the Jews didn't blast him long before this. In my opinion, they probably did not "let him have it" earlier because they were waiting for just the right moment, and they found it when the Klan investigation began. The Klan is now having a real hay-day in the South, and the Jews are pretty desperate to stop it. Burros was just the bomb they needed, and they dropped it. In the New York Times story which caused Burros to shoot himself, the reporter admitted that A JEWISH AGENCY supplied the information of Burros' Jewish background!

In the light of all this, it is clear to me that the JEWS, as usual in such dirty affairs, can be given most of the credit for the immediate cause of Burros' death.

But not even the Jews are to blame in the long run. Burros himself aimed that gun at his temple the day he started living the biggest lie in my experience. The trigger was cocked and waiting to smash the bullet into his tortured, screwed-up brain the moment the inevitable happened and his lie was exposed.

Daniel Burros is more proof to me of the born MADNESS of the Jewish race. Most of them live the same awful lie, that they are like the rest of us, etc., etc., and history is a tragic procession of the inevitable results when the non-Jews find out what the Jews have been doing to them. I think most of them HATE themselves bitterly, and compensate for it by forcing themselves and their Jewy-ness on us and making us pretend to love them. Burros hated himself and his Jewishness, and went a step further, planning to MURDER them all.

It killed him.

## The Ku Klux Klan

I have never made a secret of my attitude to the Ku Klux Klan or any other organization fighting on our side, -the White, anti-Communist side. The Ku Klux Klan saved the White South a hundred years ago, and I am not about to forget it.

But I also believe that the basic ATTITUDE of the Klan today is wrong. First, it is wrong because it WON'T WORK; terrorism on a small scale by a few brave men only provides "martyrs" for the niggers, commies and Jews and inflames the passions of the mobs who are NOT TERRORIZED ENOUGH, and secondly because the Klan thinks entirely in terms of DEFENSE and DELAYED RETREAT, instead of in terms of ATTACK, --which has always and everywhere been the only way to win a war.

The Klan wears buttons reading "NEVER!"

I agree with those sentiments in my heart, but I also know that all over the South, Federal bayonets and Federal handouts are making a mockery of that brave boast of "Never!" The niggers are on the march and everywhere advancing. The Klan's only answer is a splendid and courageous effort to STOP that advance, and men are risking their very lives to do it. I cannot quarrel with that.

But the Klan --indeed the whole South, is fatally infected with the deadly germs of defeatism; they think in terms of building a "wall" around the South with "state's rights" and stopping the nigger revolution by killing and terrorizing a few selected niggers and white filth. They have spiritually abandoned the idea of CONQUERING the enemy. They hope only to CONTAIN him, to delay him as long as possible.

Any force which abandons hope of eventual and total VICTORY is already defeated in spirit. Its physical beating is only a matter of time.

Instead of trying to outwit and curse the tyrants who today make up the "Federal Government", the American Nazi Party insists that we must BECOME the Federal Government. Instead of sneaking around killing a few selected niggers and white trash communists, we must win the power to haul these criminal enemies into the light of day, try them before American juries for treason and rebellion and conspiracy to murder and rape and loot --and then kill them by LAW. Instead of howling for "State's Rights", we are content to let the Federal Government keep its power --so that the WHITE CHRISTIAN PEOPLE WHO BUILT THIS NATION CAN SOME DAY USE THAT POWER TO UTTERLY DESTROY COMMUNISM and all its evil appurtenances --especially race-mixing.

For this reason, we oppose the TACTICS of the KU KLUX KLAN. We believe SNEAKING is no good. We believe it is time for the White Man to disdain disguises and quit cowering behind fancy words as the Kosher Conservatives do. We believe it HURTS our cause for a parade of White Men to be forced to come into the glare of national publicity in Washington and take the Communist's beloved "Fifth Amendment" for weeks on end. Part of this hurt is the fault of the "new", Weltner-dominated Committee, of course, (brought on, by the way, by Goldwater's vicious destruction of many of the best members of the good old committee we so long admired) --but the Committee is not solely responsible for the miserable situation of the Klan witnesses. The Klan itself emphasizes secrecy and all that goes with it. This leaves it wide open to exactly the kind of clever attack now being made by the devilish Jews, in which a fighting, White American is forced to respond to a question like, "Are you ashamed to be a member of the Ku Klux Klan?" with the reply, "I honestly feel that my answer would incriminate me".

The swine behind the present pillorying of the Klan know very well I would have a BALL answering every last one of their questions, and nailing the guilty Kikes and niggers and communists to the wall in public, and so they dropped the investigation of the American Nazi Party.

This is OUR country, not a nigger or a Jew or a Communist country (yet), and I will be damned if they are going to force me to SNEAKING and lying and cringing behind the same amendments the Commies use. Seeing this go on in public day after day for weeks spreads the idea among the people that we are DEFEATED and that our last hope of survival lies in sneaking and hiding like the filthy reds. White men are not sneaks! We're lousy at it.

White Men were born to be lords of the open highway, not skulkers in the dark alleys and gutters like the Jews have always been.

The Conservatives are sneaking and hiding behind pretty words. Now they have forced the Klan to look like some kind of unAmerican criminals.

Isn't it clear by now that our ONLY hope lies in the natural genius of the WHITE MAN --honest and open ATTACK, instead of sneaking retreat?

I am blasted endlessly by my own side for "burning" people who get near me. "They will call you a 'Nazi' if you get near Rockwell" goes the stupid canard, even while they howl that every White, Christian, anti-communist --even Jew Goldwater--is a "fascist" and a "Nazi". Long before I ever appeared on the national scene, they were screaming that Joe McCarthy was a "Nazi". I have never seen or been near George Wallace, but every Jew and Commie paper in America is calling him a "Nazi" and his state troopers, "stormtroopers".

The reason people get "burned" when they get near me is that I am "peddling" the hottest commodity in this world, the TRUTH. The others are all crazy about the commodity, but scared to death to put it out on their counters for the public -and the Jews, to SEE. They wrap it up in tinsel and ribbons and swear up and down they have NO IDEA of what's inside the package. They are for everything the Jews are against, and against everything the Jews and niggers are for, but they go into hysteria if anybody suggests they might be against the niggers and Jews. Even hotter in the way of hot truth is the matter of Hitler. Hitler fought for all the things most rightists believe in, especially the right of the "master-race", the Whites, to rule their own nations. But this item of truth is SO red hot and burning that all except us fling it as far away from them as they can, cursing it and raging about how they agree with the Jews, etc etc -even while they are reciting their litany of "The truth will make us free"!!!!

The truth is indeed a powerful sword, but it can win no victories by itself. It must be wielded by a brave, fighting man. In the hands of cowards, a thousand sharp swords are more useless than the bare knuckles of a hero. Yet the very high priests and priestesses of the "truth will make us free" cult are the first ones to deny, like Peter, that which they claim to worship.

There is no more TIME nor energy in our ranks for any kind of misrepresentations or sneaking, even if we were skilled at it, which we are not. The Kosher Conservatives fool nobody that they love Jews and niggers, least of all the Jews and niggers. And the Klan fools nobody with its protestations of "non-violence" which sound better in the ugly mouth of Martin Luther Coon.

It's time to pick up the sharp sword of truth and ATTACK the enemy with it, inspite of the army of right-wing cowards and sneaks who are so anxious to escape the wrath of the enemy that they attack us for doing what they keep preaching.

Our motto continues to be, "White Man, stand with us and FIGHT, --or stand out of our way!"

# THE BLACKOUT

Everywhere I have spoken the past week, there has been intense interest in the New England "blackout". As Abraham Lincoln said, "You can fool all of the people some of the time, and some of the people all of the time, but you can't fool all of the people all of the time". No matter how the news-managers "explain" and soothe, folks just naturally KNOW that such an enormous event affecting millions of people, millions of square miles, two nations, and dozens of separate networks of power lines and companies is not ALL accident, --not when that "accident" exactly fits the pattern of the Communist-Black revolution being launched upon us from Cuba.

The first clue came with the official announcement right after the blackout. It was the same kind of damned-fool announcement they made right after Communist Lee Oswald shot the President, at which time our mentors told us, "We are not sure

of anything else, but we ARE sure Oswald was a 'loner' and communism had nothing to do with it!"

They just don't want the people to get to THINKING about the possibilities of a Communist take-over, and so, before the black-out was more than hours old, our top officials soothingly assured us, "We don't have any idea what caused it, BUT WE KNOW IT ISN'T SABOTAGE!"

In our article on the assassination (which has been extensively USED by the "conservatives" who are so busy calling us "Communists"), I exposed the fact that Oswald had attended a Communist training school for U. S. saboteurs in the same city, Minsk, where he just "happened" to go when he got to Russia, and that assassination is part of the course at this Russian school of destruction and murder.

One of the techniques taught in this Russian school, (and all schools of sabotage) is RADIO CONTROLLED demolition and operation by remote control of sabotage equipment. To see a dramatic demonstration of what I am writing about, go to a television dealer and ask for a demonstration of what the Zenith people call their "space-command" set. They give you a little "magic box" with knobs. It's not connected to anything at all, and it seems impossible that this little box could DO anything. But when you move the knobs on the box, everything on the television set, across the room or even in another room, jumps into powerful action, even changing channels, on command of that tiny box.

Now just imagine this technique applied not to a harmless television set, but to the delicately balanced RELAYS and switches in our power network.

The technical experts to design the equipment and teach its use are EVEN NOW IN RED CUBA. Many of our Negroes have been to the Communist sabotage schools in Russia and Cuba. Some may WORK within our power stations themselves.

To shut off all the power in the area affected there was no need for old fashioned explosions of big black bombs planted by wild-looking men with long beards.

All that was necessary was for five men to synchronize their watches. At a precisely predetermined moment, five cars drive up to five power relay stations hundreds of miles apart. The stations are lonely; they are automatic, relying on MAGNETICALLY operated "relays" to switch power on command by impulse from a master station. Not a human soul is around and the men do not even get out of their cars. At a precise second, all of them use the little black box in their hands to send deadly signals to the switching equipment in the relay station.

Almost everything in one quarter of the United States comes to a complete STOP!

There are no fingerprints, no marks, no damage and no clues of any kind. Even the tire marks prove nothing where there are hundreds of others. The officials assure us that the equipment simply malfunctioned.

In FIVE PLACES, --all at the SAME TIME?

Only blind fools would swallow that.

Unfortunately, I cannot reassure our readers that their fellow Americans, at this point, are NOT blind fools. They bought the "Oswald" was a "loner" baloney' and the "hate-killed-our-President" garbage.

They will not listen to the frightening truth until the full fury of the Communist-nigger revolution breaks on them in all its savagry and bloodshed. All that those of us who see can do, now, is to GET READY TO LEAD A SUCCESSFUL RESISTANCE when the time comes; inform ourselves, do our best to inform others, arm for self-defense, train to lead the White masses, and, above all, to ORGANIZE the makings of a White Man's MASS MOVEMENT.

Just imagine the nightmare of CHAOS and BLOODSHED which would have followed the black-out, had it continued, or had the Negroes STRUCK while it was on! Our White people would have fled like autumn leaves in a gale before the black hurricane which is NOW in the making. I believe this was just a "dress rehearsal" for what's ahead. When this nightmare STRIKES, only the most radical and well-known fighting LEADERS will be able to rally our terrified people to RESIST.

The people MUST have a name and a symbol of MAXIMUM resistance already burned into their brains when the world blows up in their faces. Only the American Nazi Party has unwaveringly beaten that kind of all-out image and symbol into the minds of millions of Americans over the past six years. When the average American thinks of all-out opposition to Jews, niggers and the hell-raising in the streets, he thinks not of Welch, Hargis, Courtney, Everingham, Dilling, Cotten, McIntire or Smoot, as much good as these people may do. The man in the street thinks of only two names, when he thinks of a STREET FIGHT with the enemy; "The American Nazi Party" and "George Lincoln Rockwell". Right now, that fight seems too radical and scares him. And the rest of the right-wing is foolishly telling him we are "communists". But in a very few years, he won't give a damn for such name calling. He will want FIGHTERS, not gossipers. He will want ORGANIZATION, not publications. And, above all, he will want the feeling that he is led by experienced fighters who are thoroughly familiar with chaos and catastrophe and know how to restore order and strength even in the midst of hell itself. And hell will be mild compared to America when the commies and niggers STRIKE.

At least, in hell, the fires give light.

America's final trial, like the recent black out, -will be in the DARK.

# The Ultimate Danger

If I were asked to name the ONE misconception which, more than any other, produces fat-headed, nigger loving liberals (and Conservatives), to say nothing of fat-headed radical rightists who get "hung up" on economics, side-issues, etc. and forget that THE issue is RACE, I would say it is the unbelievable ignorance of "our" people and liberals on the subject of evolution.

Even Fundamentalists are beginning to give way on evolution, and admit it at least exists, since it goes on all around us NOW. They can SEE that dogs, horses and other animals can be BRED with or without certain desired characteristics, and it is becoming increasingly hard to scoff at the mountains of scientific EVIDENCE of man's evolution.

I am not an atheist, as most of our people know. I refuse to believe the Old Testament and much of the incredible "tricks" in the New. I can not believe that such a profound conception as I have of the Unknown Power in this Universe would do "magic tricks" for the benefit of men. But I can see no contradiction in believing in the Great Unknown Spirit, as I do, and also believing that He would subject men, as well as all other creatures, to the same natural laws of upward struggle and evolution which have produced all the higher animals from single-celled creatures in the depth of prehistoric seas.

Most of our people go along with me on this. But I find that even these enlightened folks have almost no real understanding of the PROCESS by which Nature produced a HORSE from "eohippus", or a bird from a crawling, prehistoric reptile. And this, in turn, prevents them from seeing the REAL danger of our times, which is REVERSAL of the processes of creative evolution.

The main reason people recoil in horror from the FACTS of how man and the higher animals evolved into the wonders which they are is that the process SEEMS, to short-sighted men, CRUEL.

Nature is absolutely (and I mean absolutely in the precise, scientific sense of TOTALLY), ruthless in MASS DESTRUCTION of weakness and unfitness.

So few people understand this great First Law of all living things that I believe it is well worth while for us to pause, in the midst of marches, revolutions, sit-ins, sell-outs and organized insanity and degeneracy, to reflect on what all this is LEADING to, and WHY these scummy cruds of the world are fighting National Socialists so bitterly.

I have often described Communism as the organized MUTINY of the inferior of the earth against the White Man, with the mutiny being led by the JEWS.

This piece in the Rockwell Report is designed to give a basic understanding of why I use that definition, instead of some of the other definitions we hear all the time, involving the Devil, Jews, Niggers and all the rest of the pat definitions.

Overall, the struggle of our times is the battle of the tiny minority of the Strong and the FIT to survive the mass attack of the weak and the degenerate, trying to overpower us by sheer NUMBERS. The White Race mastered, and yes, let's face it --just about ENSLAVED the teeming dark masses of the earth in Africa, India, China and in America, where we wiped out the Red Man.

The White Man gloried and reveled in his exuberant STRENGTH, and despised weakness and all forms of cowardice. By our degenerate standards of today he was "cruel", viciously "cruel".

Our great-grandpappies "interpreted" Christianty to glorify the STRONG parts, and sort of skipped over the "turn-the-other-cheek" bits. We didn't turn any second cheek to the INDIANS. In fact, we didn't turn them the FIRST. The White Man everywhere was a brutal, predatory KILLER, who swept everything out of his path, literally building civilization out of the sweat and blood of inferior slaves.

There would have been no pyramids without hundreds of thousands of SLAVES.

There would have been no British "Empire" without the utterly brutal British Army and Navy. When the Indians in India even looked as though they might be thinking of mutiny, the British Army spread-eagled them in the mouths of cannons, called the hundreds of thousands of natives together, and then BLEW the "rebels", in bits and pieces, out over the heads of the terrified mobs.

There would have been no "America", had our great-grandpappies not driven, hounded and mercilessly EXTERMINATED the Indians. That may be a bloody and evil-sounding statement, but it is TRUE. Had America been peopled by today's "liberals" and "conservatives" a hundred years ago, there would be nothing but White scalps hanging on lodge-poles to represent YOU and your property would have still been wilderness full of naked savages. We can pontificate about our noble ancestors and our "humanity" only because our forefathers, in ACTION, were anything else BUT "humanitarians". They were NAZIS! They asserted their absolute SUPERIORITY in pious language, and EXTERMINATED whatever defied their superiority.

Ugly as that may seem to the brainwashed, Jewized mind, that is NATURE'S OWN WAY.

There are no "humanitarian" tigers or even little bugs. All live by the iron rule that the stupid, the slow, the foolish MUST perish to assure the survival and happiness of the strong and intelligent. Unless man can learn to live by that rule, albeit as gently and decently as possible, he will DESTROY HIMSELF by EVOLVING BACK TO WEAKNESS AND STUPIDITY.

In fact, that is what he is NOW DOING all over the world, because he is too chicken to assert himself. And when Hitler did it, and told us the Whites are a MASTER-RACE --which they are, we helped the Jews and the scum in the world's biggest and most vicious LYNCHING party, to destroy the first and best hope we had of putting down the world mutiny of the inferior scum.

To get a clear picture of all this, and what may be more important, to pass that clear picture along to others, you MUST understand the mechanics of the upward struggle of all living things which is called "evolution".

You can see Nature (or the Lord) at work in any barn yard or stable where there is BREEDING going on.

The first principle is that heredity is a POSITIVE element, environment a negative.

No breeding expert would spend ten minutes trying to "build" a miserable, feeble, sorry little colt into a champion race horse--unless the weakness were the product of some curable disease, etc. I am talking about a colt BORN physically defective.

Such a two-headed or EMPTY headed or weak colt would be delivered to the dog-food factory.

And that's just what NATURE does, too.

What is born weak and miserable PERISHES.

Thus, what is weak and miserable is unable to PASS ALONG these wretched characteristics to poor, innocent offspring. There may be a few seconds of agony for the dying weakling, but these are as nothing compared to the YEARS of misery such a weakling would bestow on UNBORN generations, if he did NOT perish quickly.

Observe what we are doing today, not only with the colored billions we are breeding, but to our OWN people. Everything born of a human female, let it have two heads or NO head, is saved by any and all scientific marvels of medicine. A great many of these poor, miserable creatures are actually kept alive for years or a lifetime, and some of them breed! Nature would NEVER be so stupid and cruel!

But OBVIOUS monsters are not the real danger. I feel sure a lot of doctors let these poor little things die at birth, when their affliction is obvious, in spite of all the precepts we are taught. Instinct is more holy and true than preaching.

The real danger is the HIDDEN monsters we keep alive, and permit to BREED MORE!

This includes the imbeciles, the cretins and the near-cretins who grow up to be flap-jawed liberals preaching human suicide and are unable to understand the SIMPLEST cause-and-effect relationship or the simplest logical development, who are pampered and preened in our colleges until, like trained baboons, they can babble the catechism of "love" and "one world", etc.

It also includes the "Conservative" ninnies who are the same as liberals EXCEPT that the liberals and commies threaten to take away their MONEY, and so they become naked, greedy

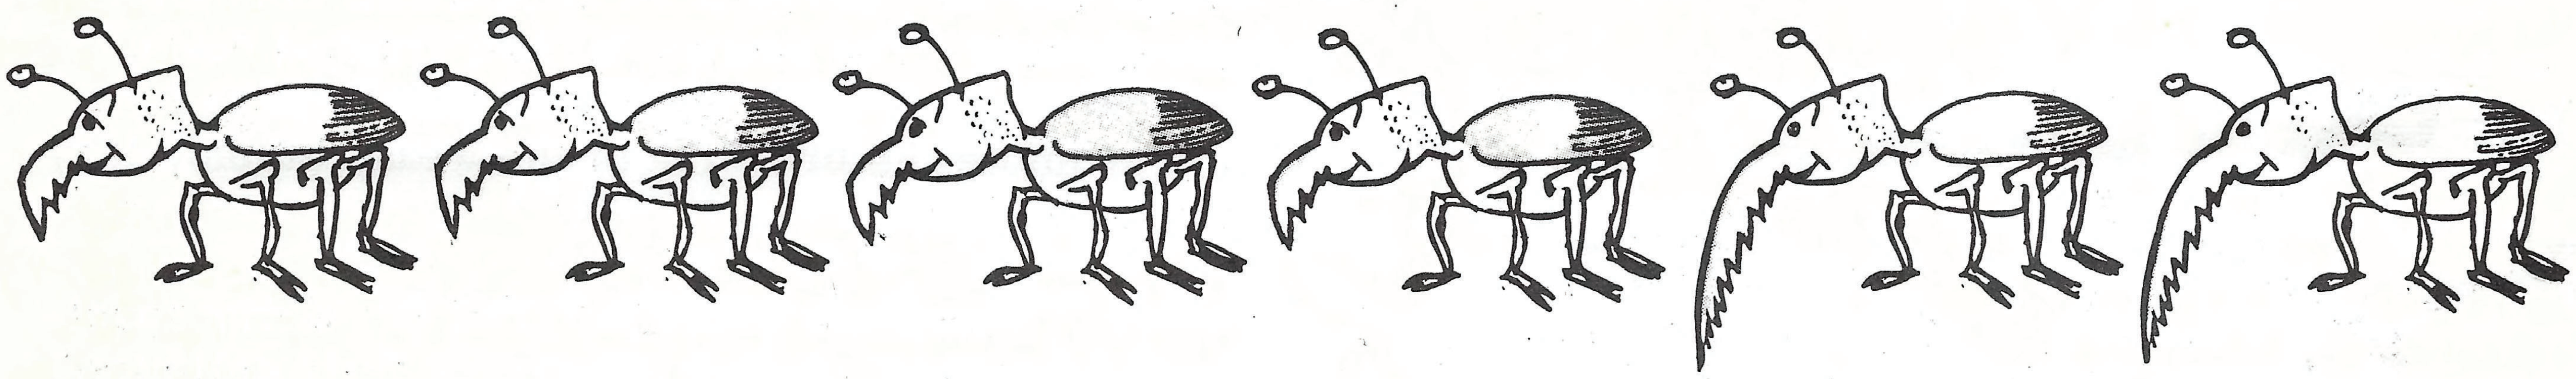
reactionaries, disdainful of any real effort to save our race, but interested only in ways to save their worshipped CASH.

These swarming fat-heads have literally reversed "Natural Selection", and, for their own selfish ends, started the breed of the White Race BACK toward the lower order from which Nature bred us up, over millions of years.

To see this clearly, let me present some diagrams which will make the principles involved here more graphic:

FIGURE 1



Let us start with a group of bugs. To illustrate the principle of Natural Selection, let's say that these bugs live on smaller bugs they find beneath the bark of trees. To get at their food, they need long tongues and beaks with which to burrow under the bark. (Figure 1)

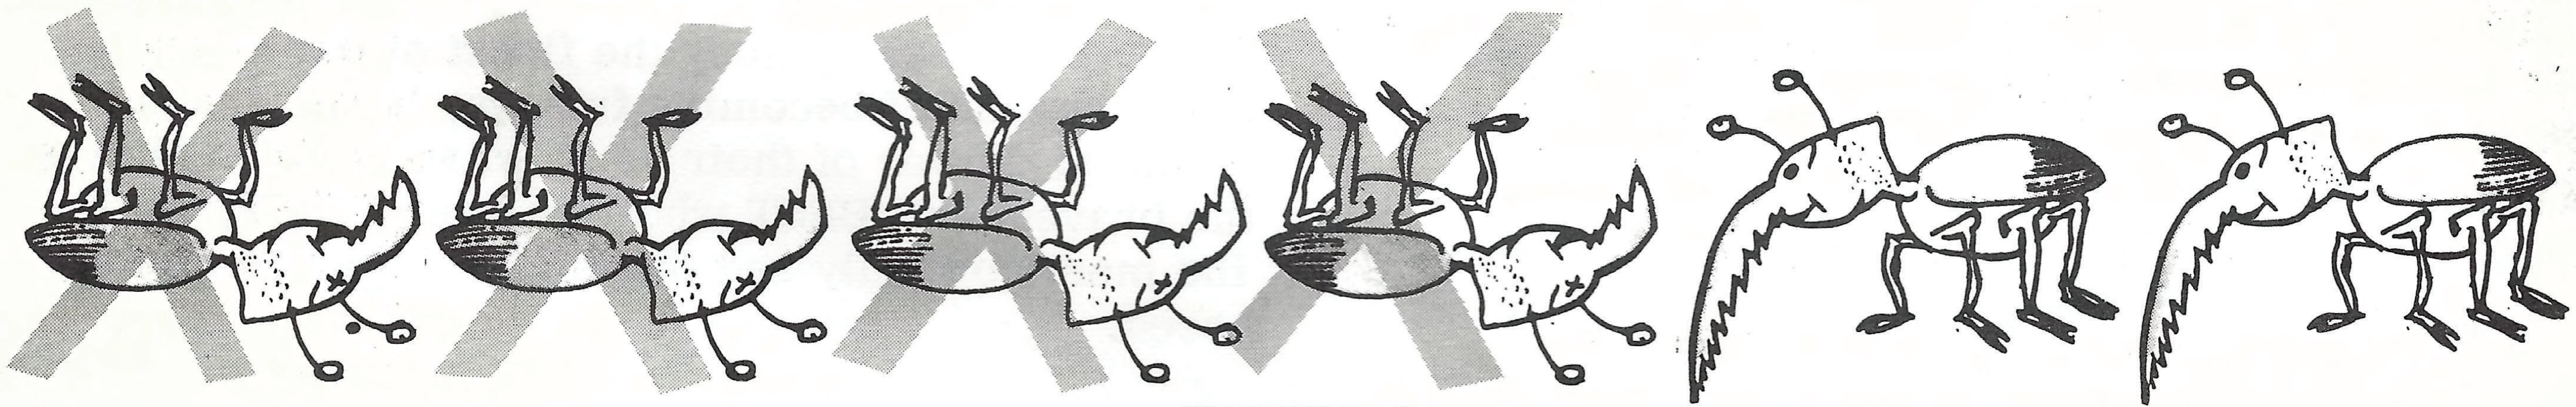


FIGURE 2

Now let's suppose that a great change occurs all over the earth, forcing the trees to grow much thicker bark, inches thicker.

Almost all the bugs will die, because their beaks and tongues are not long enough to get through the thicker bark to their food. Millions of them will starve to death. (Figure 2)

But there may be four or five out of all the countless millions of these bugs which have longer tongues and beaks than all the others. These bugs with slightly longer beaks will manage to survive and BREED. The same genes and chromosomes within them which gave themthe longer beaks, will be passed on to SOME--NOT ALL--of their offspring. Out of all their offspring, perhaps two or three will have the long beaks. THE REST WILL ALL STARVE TO DEATH. (Figure 3)

Of these survivors, only those with long beaks will survive to breed.

A few more of their offspring will have the long beak characteristic, since both parents will have had the characteristic.

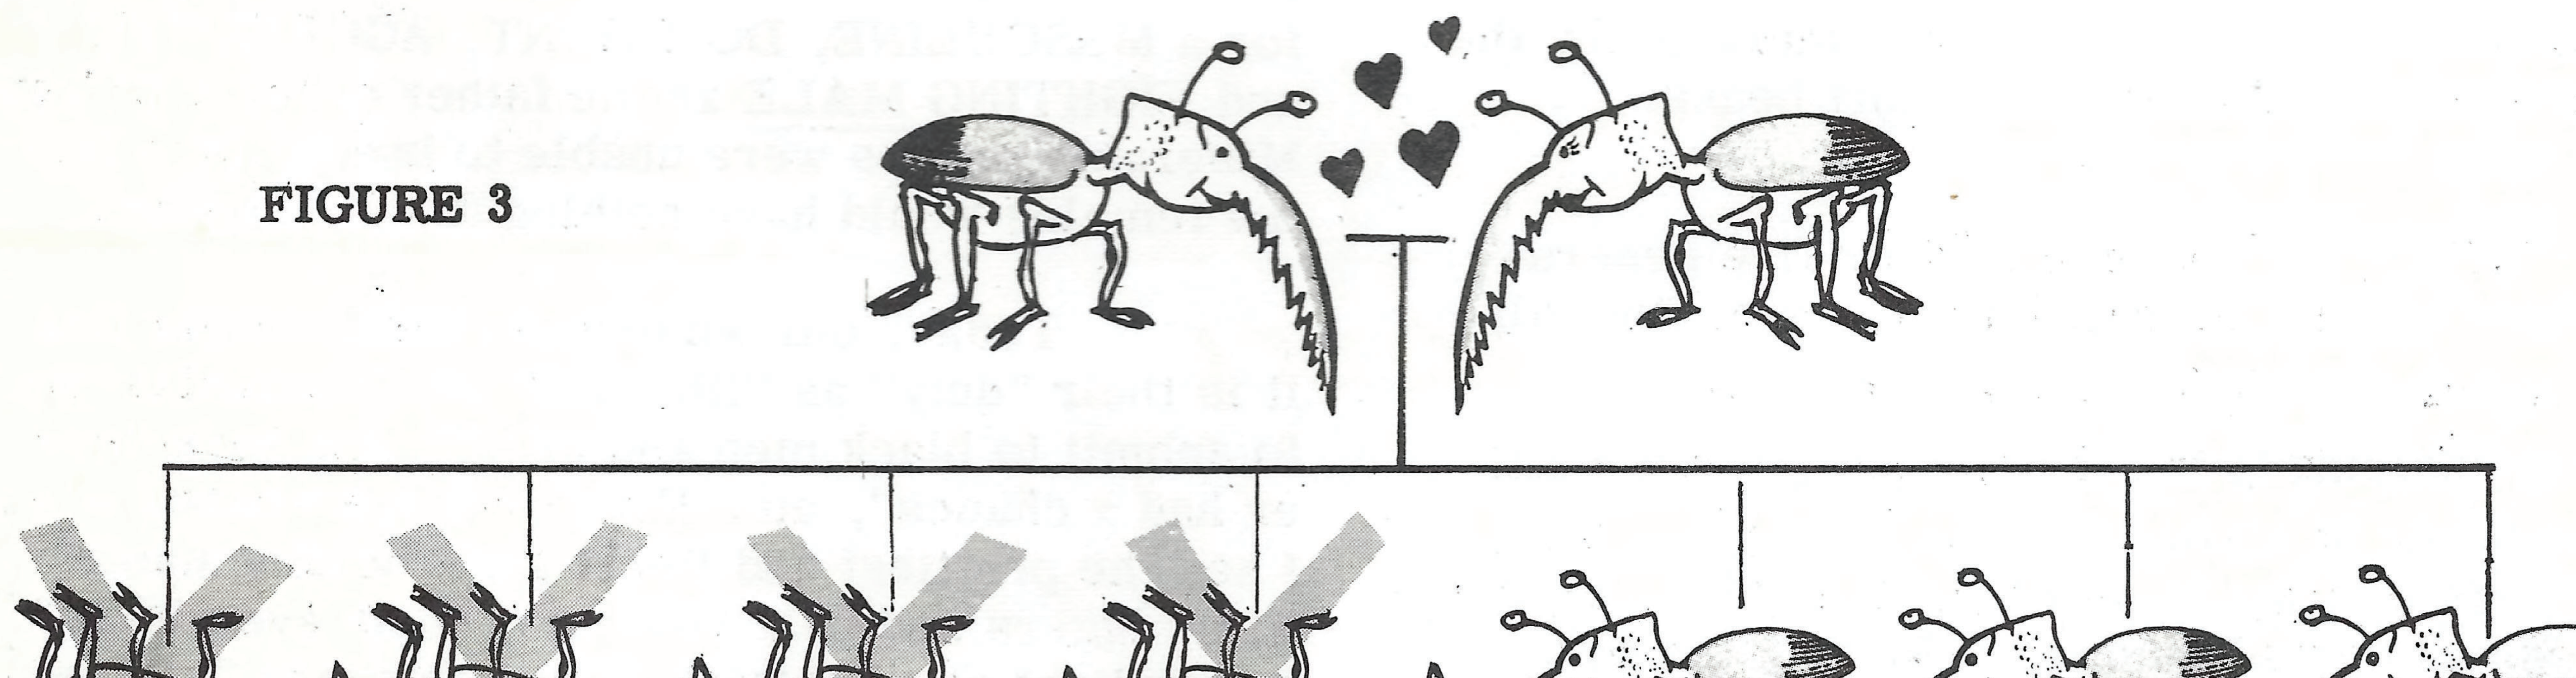
Again, those who DON'T have the long beaks simply perish of starvation.

Now repeat this process over a period not of weeks or months or years, but whole AGES.

The result will be a brand new BREED of bug, ALL of whom have long beaks and tongues. (See Figure 4 on page 16)

That's precisely how Nature produced every higher being on this earth from a lower, by

**FIGURE 3**



a ruthless and brutal process of "murder", if you want to call it that.

Now let's suppose we start with our same group of original bugs, and let's add a "humanitarian" liberal.

"We can't let these poor, helpless creatures just DIE!" exclaims our liberal."They have feelings too, they have a "right" to existence and to enough to eat."

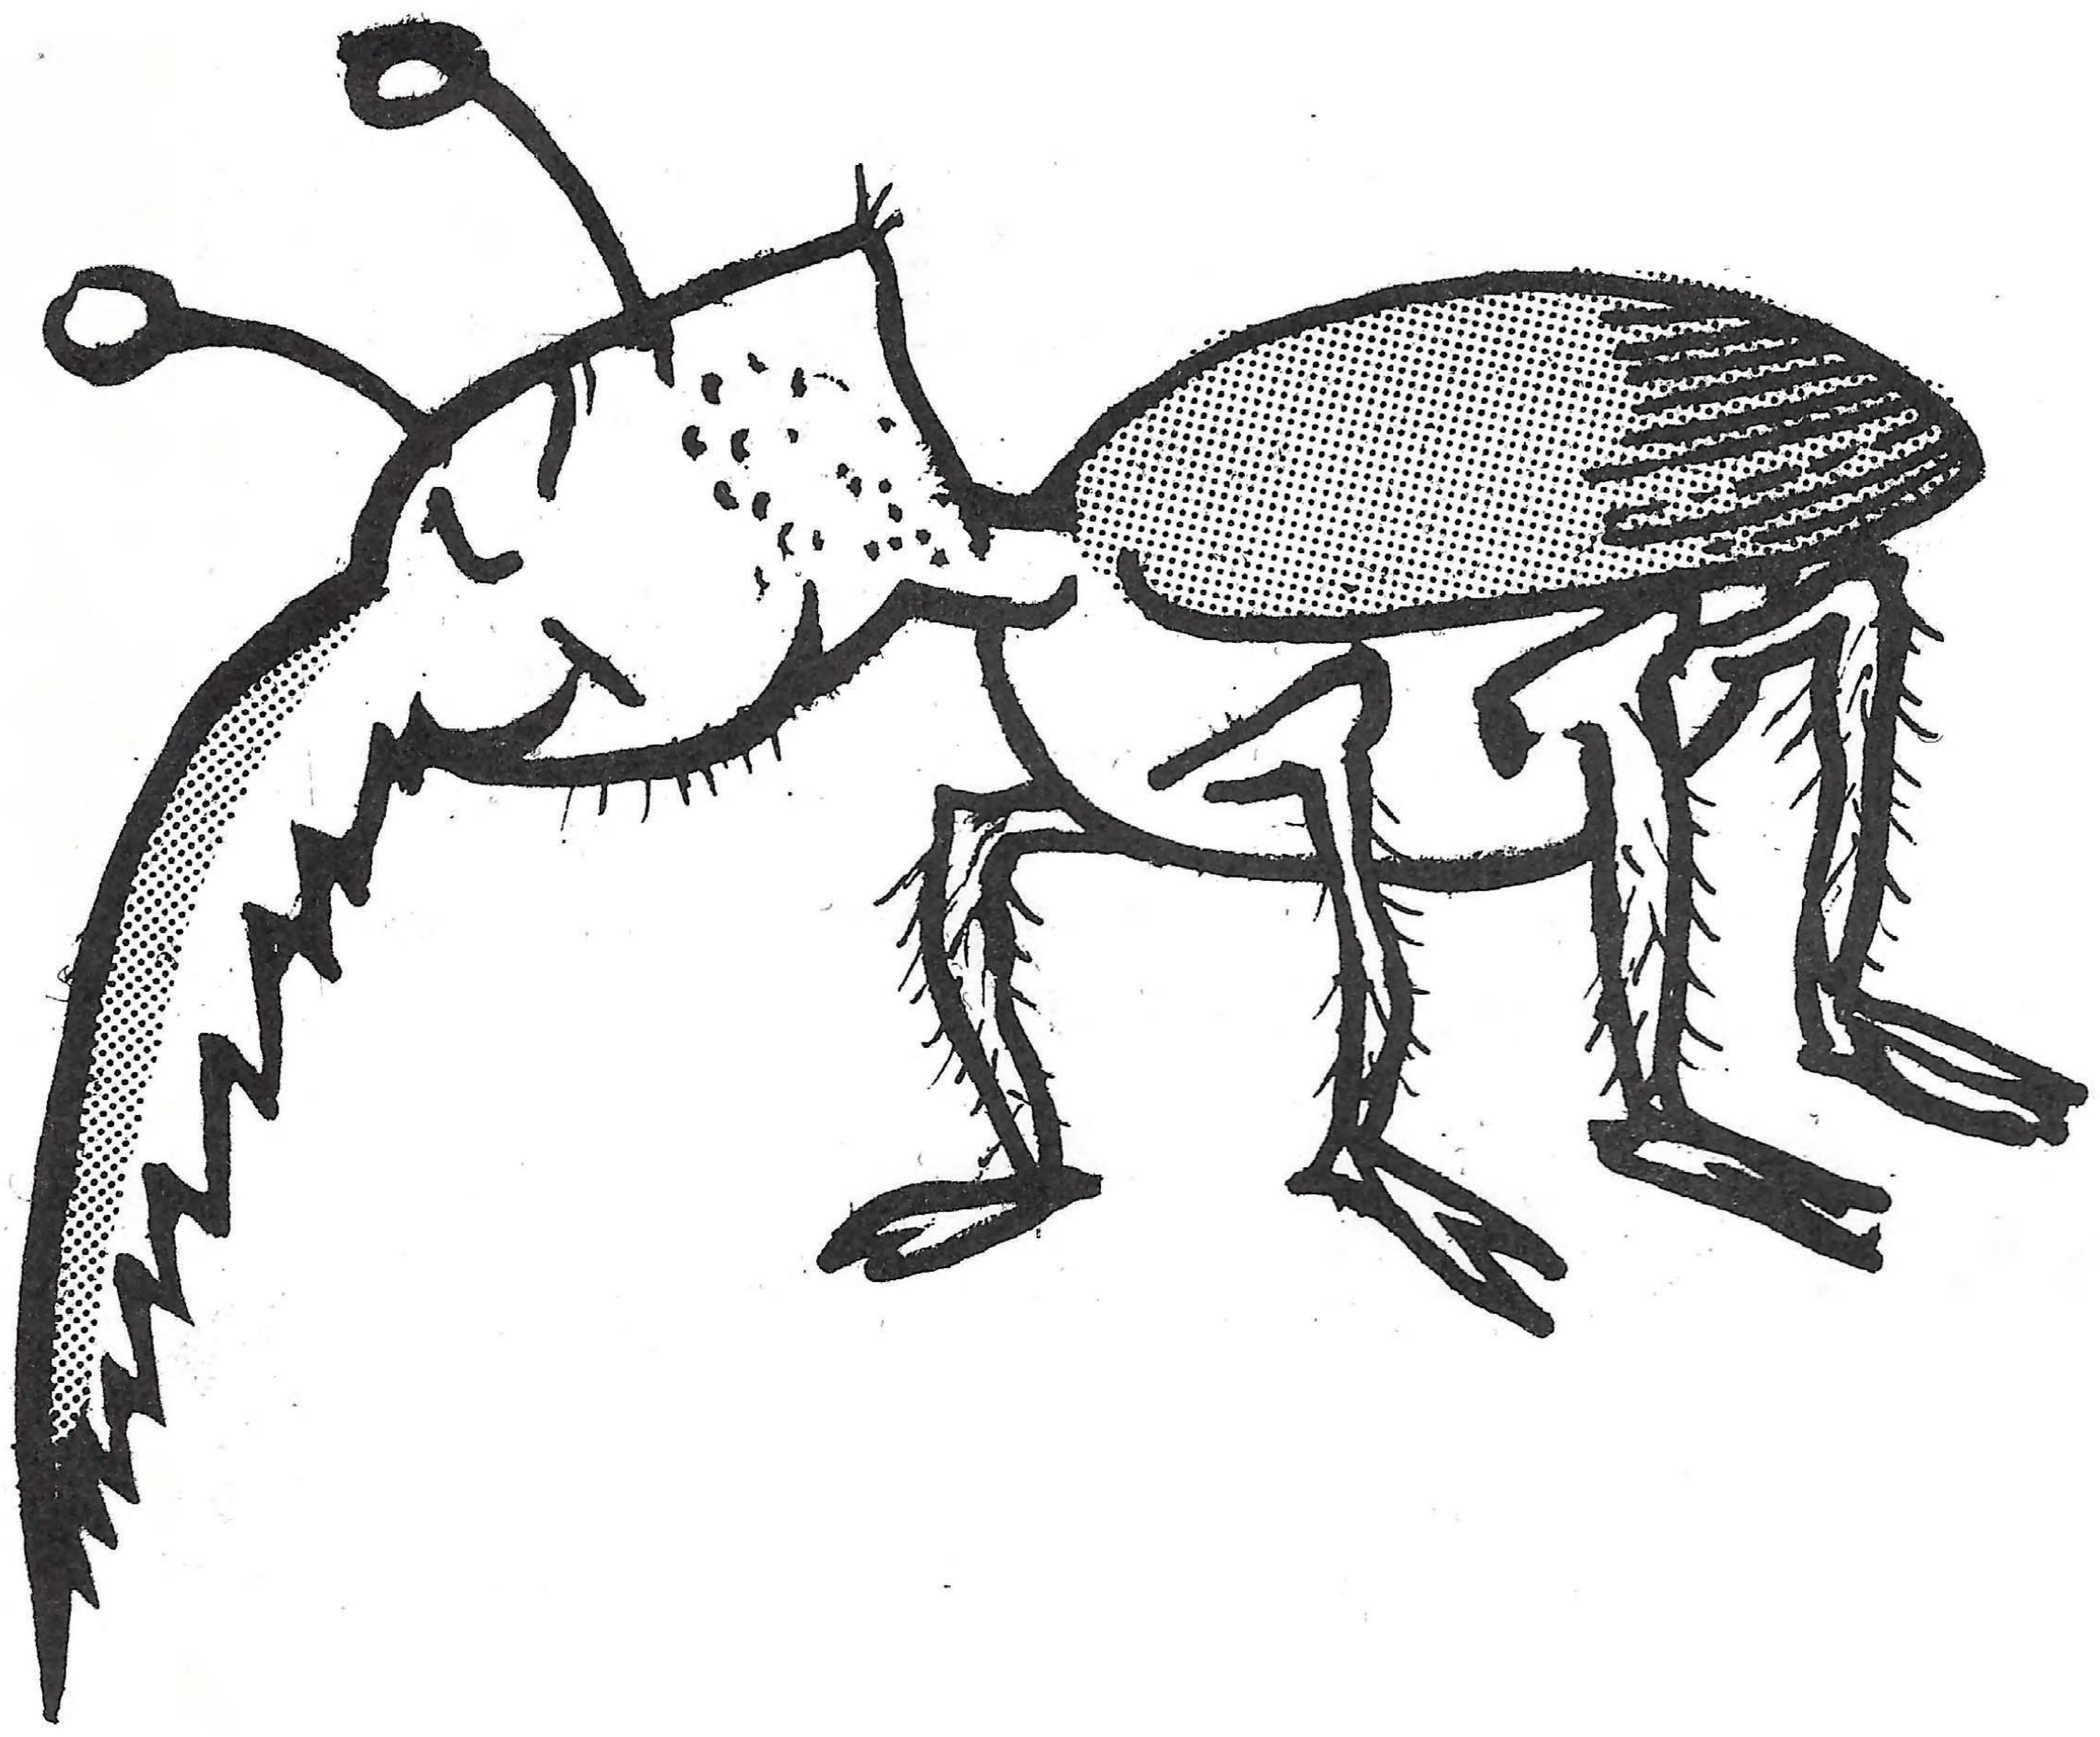


FIGURE 4

So our liberal goes out and gathers up a meal of the smaller bugs for the short-beaked bug which would otherwise starve to death. The short-beaker gets fat and raises a brood of more of its kind --which must also be fed by the liberal, because they don't have beaks long enough to get their OWN food. The young brood soon produce broods of their own, increasing the liberal's job to a near-impossibility as the bugs increase by the millions and millions, all with short beaks.

Within the space of four or five generations, there will be limitless numbers of bugs all of them absolutely unable to get their OWN food. Instead of "helping", the liberal has simply multiplied the agony of starvation and misery for billions of bugs who would never have existed, except for his short-sighted madness. Worse, the liberal has also SHORT-CIRCUITED Nature's effort to produce a new breed of bug able to survive by its own efforts.

Now take a look at what is happening in our human world, with the liberals "feeding all the bugs".

Only a hundred years ago, Nature Herself wiped out most weaklings at BIRTH. Today, little ones with all sorts of BUILT-IN WEAKNESSES are kept alive --to pass along the same cruel burden to more little ones. I am not recommending infanticide, of course --merely pointing out the FACTS of what is happening to humanity.

Next, of all those who live to become adults, our society is being organized to force the smart and the energetic to SUBSIDIZE the stupid and the lazy. The successful are dragged down by confiscatory taxes which are then used to feed and promote the breeding of the weak, stupid, lazy and unsuccessful.

Far from ELIMINATING the worst specimans among us, we are promoting their unlimited breeding.

And meanwhile, the successful, strong and intelligent are taught that it is "wrong" to have more kids than they can send to college, etc, so that the highest type humanity among us breeds the LEAST.

For centuries, the finest of our young men, instead of becoming fathers, have been cut off in the flower of their youth in wars. It is always the bravest and BEST who volunteer FIRST, while the most cowardly and the sorriest stay home to breed.

The whole trend of our society today is to GIVE every human what he wants as a "right", -regardless of his native ability to earn or get it himself by his own ability and strength. This is producing MILLIONS of humans without the basic ability and without the even MORE basic WILL to survive.

Until very recently, Nature installed in our females an INFALLIBLE mechanism of selection UPWARD, --the desire of all normal women for a MASCULINE, DOMINANT, AGGRESSIVE and FIGHTING MALE as the father of her children. Miserable creeps were unable to breed, because the females would have nothing to do with them.

Today, our women are being taught that it is their "duty" as "liberals" and "humanitarians" to submit to black men and creeps who have "never had a chance", etc. Every college where I speak I see the prettiest and finest girls holding hands with niggers and peace-creeps, their eyes full of a holy light as they think of how they are "giving"!

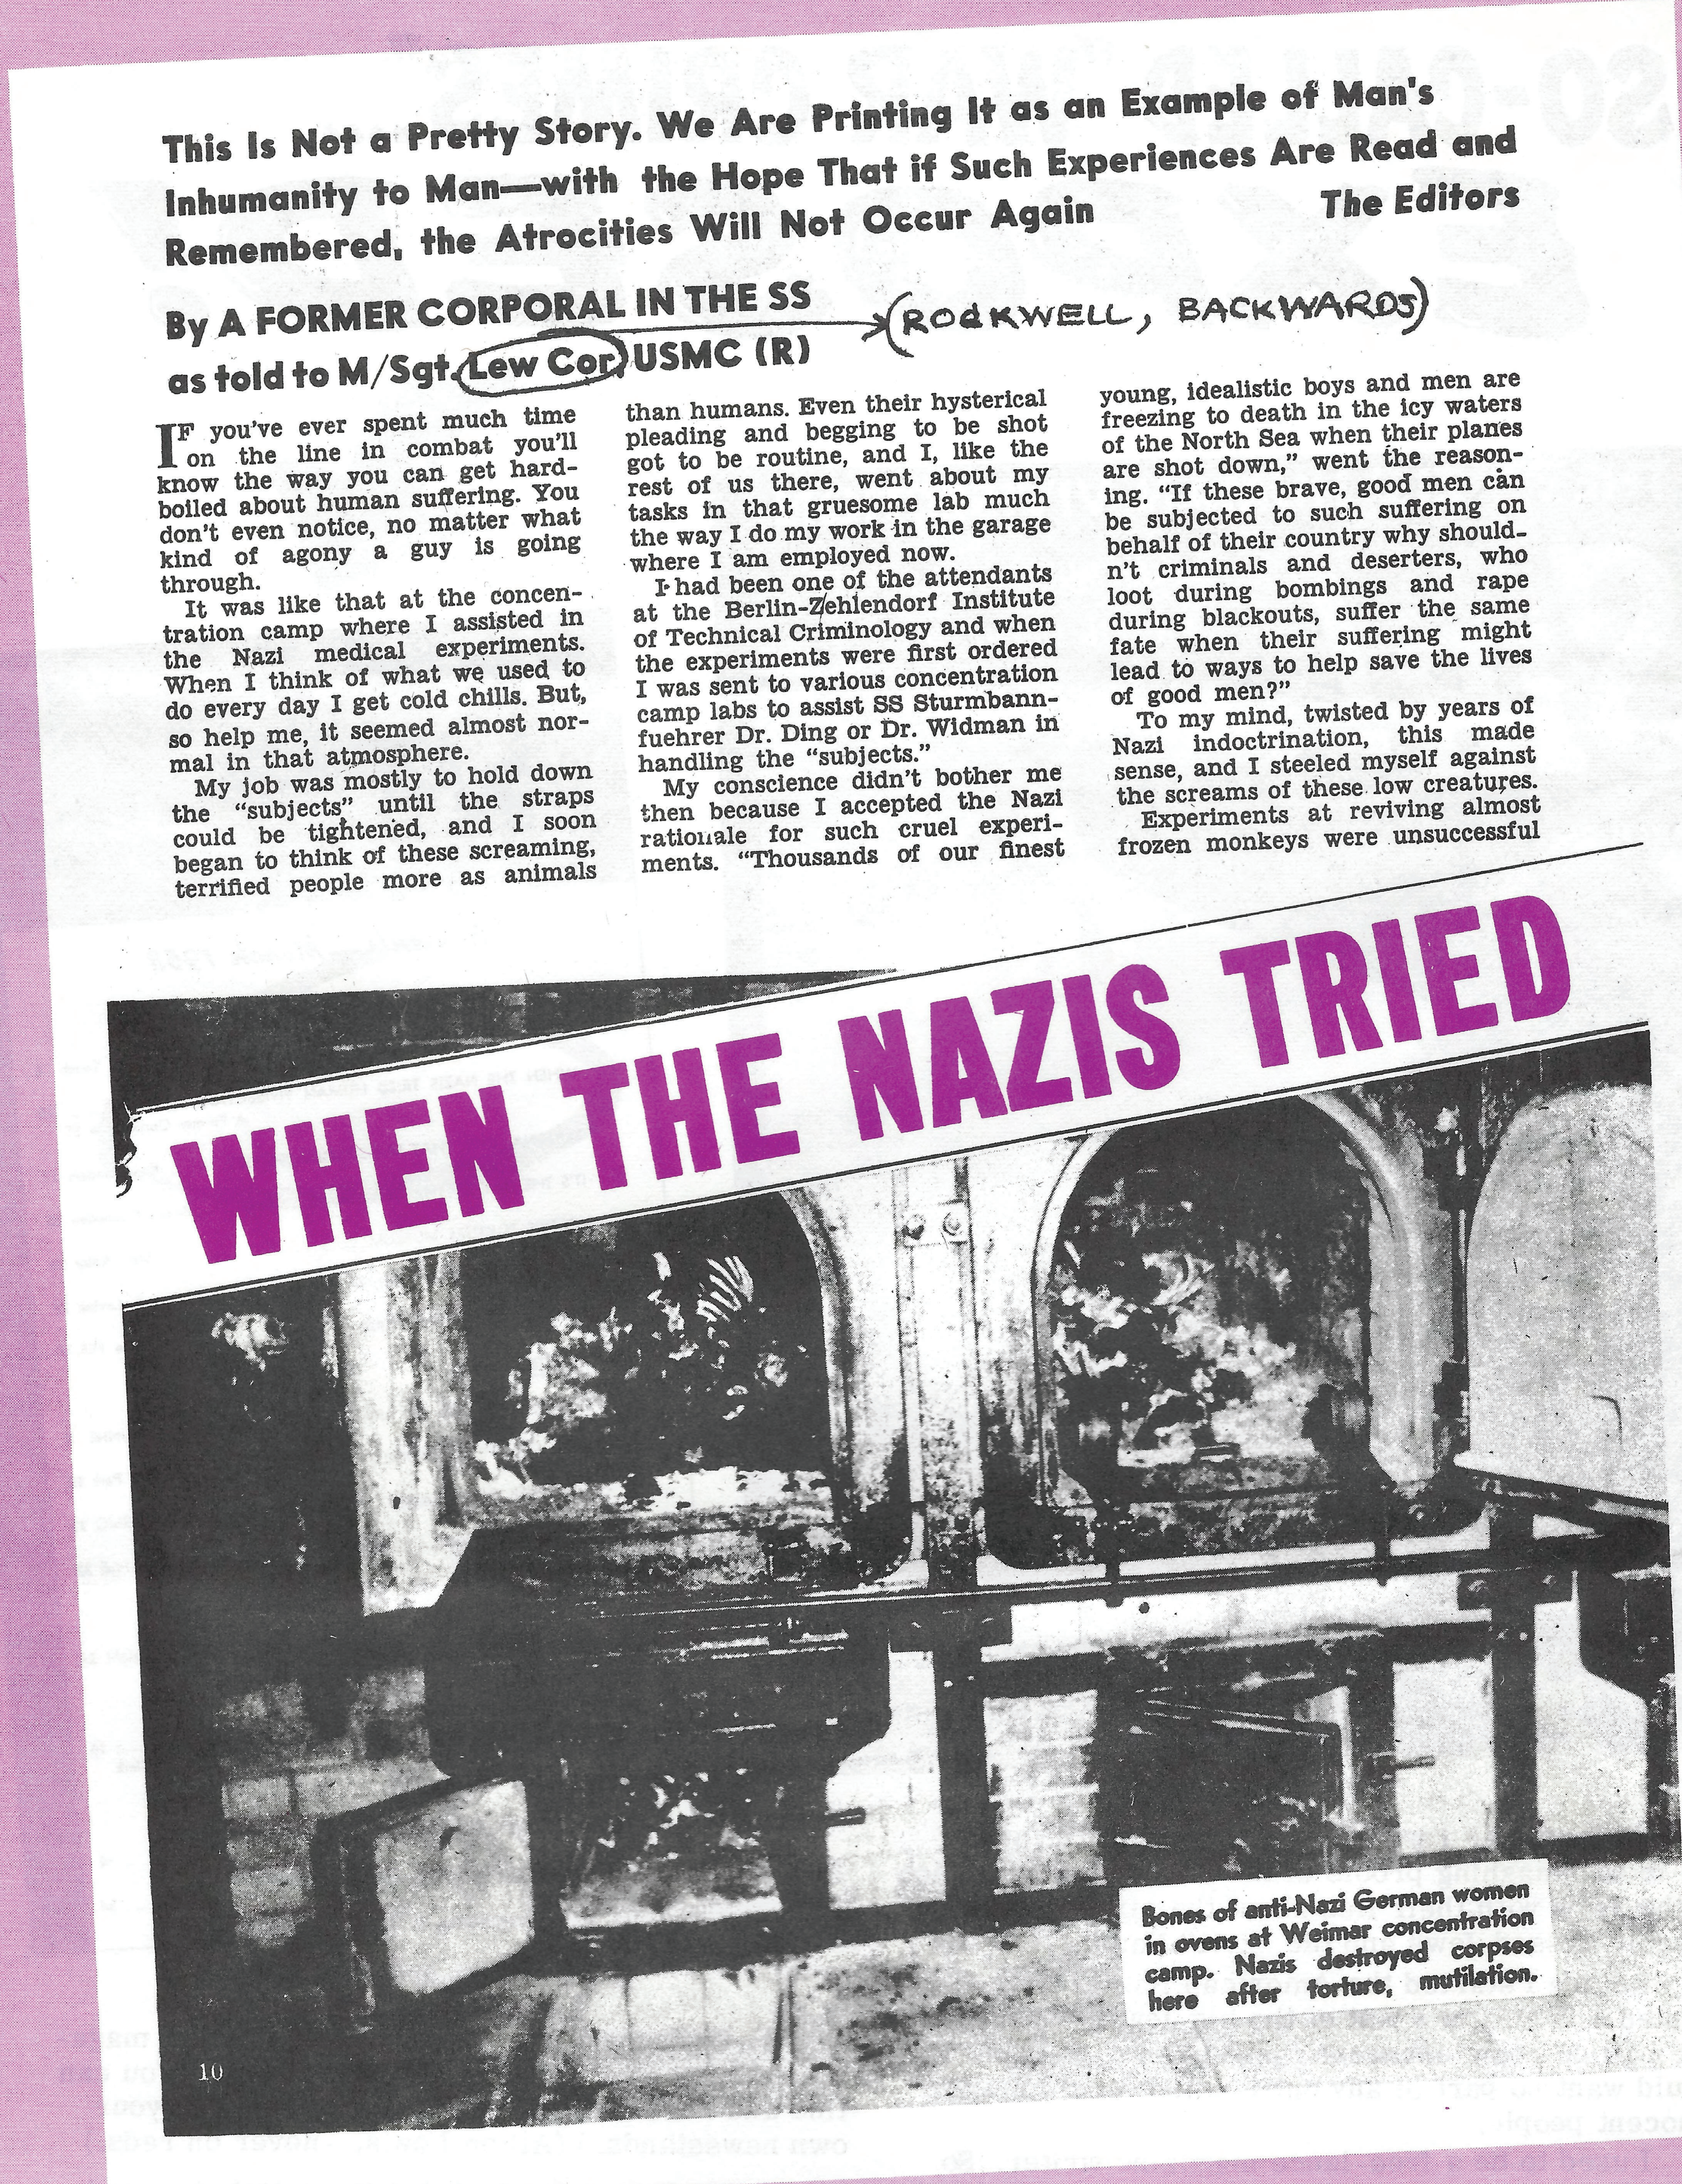
Herewith we reprint, photographically, one of the most smashing proofs of the enormous arrogance of the Jews with their lies about the six million supposedly gassed Jews and the "evil" Nazis.

Before I started the American Nazi Party, I wanted a laboratory test of the big Jew lie about the six million poor, innocent gassed Jews, etc etc. I would want no part of any outfit which would murder innocent people.

I used to be a free-lance magazine writer. So I sat down and wrote the most horrendous LIES about how the Nazis tortured and experimented on sweet, innocent Jew girls. I studied the Jew magazines to get just the right sadistic flavor. (You can find and read a dozen just like it any day on your own newsstands.) (All on Nazis, -never on reds.)

I sent it in and asked that the article be credited to a pseudonym, "Master Sergeant Lew Cor",



**This Is Not a Pretty Story. We Are Printing It as an Example of Man's Inhumanity to Man—with the Hope That if Such Experiences Are Read and Remembered, the Atrocities Will Not Occur Again** *The Editors*

By A FORMER CORPORAL IN THE SS
as told to M/Sgt Lew Cor USMC (R) → (ROCKWELL, BACKWARDS)

IF you've ever spent much time on the line in combat you'll know the way you can get hard-boiled about human suffering. You don't even notice, no matter what kind of agony a guy is going through.

It was like that at the concentration camp where I assisted in the Nazi medical experiments. When I think of what we used to do every day I get cold chills. But, so help me, it seemed almost normal in that atmosphere.

My job was mostly to hold down the "subjects" until the straps could be tightened, and I soon began to think of these screaming, terrified people more as animals than humans. Even their hysterical pleading and begging to be shot got to be routine, and I, like the rest of us there, went about my tasks in that gruesome lab much the way I do my work in the garage where I am employed now.

I had been one of the attendants at the Berlin-Zehlendorf Institute of Technical Criminology and when the experiments were first ordered I was sent to various concentration camp labs to assist SS Sturmbannfuehrer Dr. Ding or Dr. Widman in handling the "subjects."

My conscience didn't bother me then because I accepted the Nazi rationale for such cruel experiments. "Thousands of our finest young, idealistic boys and men are freezing to death in the icy waters of the North Sea when their planes are shot down," went the reasoning. "If these brave, good men can be subjected to such suffering on behalf of their country why shouldn't criminals and deserters, who loot during bombings and rape during blackouts, suffer the same fate when their suffering might lead to ways to help save the lives of good men?"

To my mind, twisted by years of Nazi indoctrination, this made sense, and I steeled myself against the screams of these low creatures.

Experiments at reviving almost frozen monkeys were unsuccessful

as you will note in the photostatic reproduction. "Lew Cor" is Roc-wel spelled backwards. The Jews printed these awful LIES about the Nazis, -written by none other than George Lincoln Rockwell, -with some garbage at the top about how it is the "awful truth", etc. Then they added a lot

with humans because of their larger size and different skin and hair structure. We needed a few humans to learn the surest method of reviving a half-frozen downed aviator, and it seemed a small thing to subject some condemned criminals to various experiments.

Later, of course, when the experiments were extended to developing poisoned bullets and fiendish ways to kill, we had gone so far into hard-boiled, scientific cruelty that it didn't bother us in the least.

One of my earliest jobs was as assistant in a series of experiments at Dachau Concentration Camp in August of 1942. This was the first time I participated in human experiments.

Thirty-seven criminals who had already been condemned to death were sent over to our laboratory under heavy guard of SS men from the Totenkopf "Death's Head" Division.

I remember it was an exceptionally hot, humid day and the condemned were sweating heavily as

## NAZI MEDICAL EXPERIMENTS

(Continued from page 11)

they marched into the compound and were driven into cages which had been built to permit continuous observation and prevent suicide.

The commandant of the camp had managed to supply a well-rounded group of physical specimens for the experiments, as had been requested. Some of the guys were regular tubs of fat. One of them had a great floppy pink belly hanging over his tight pants. In spite of the situation it was a funny sight as he puffed and panted, and the guards were having a great time with him. They kept him in an hysterical state with a steady argument about whether he should be boiled down for soap or if they should just stick a wick in one of his bodily orifices and use him for an emergency candle. He was terrified beyond description and I will never forget his dripping, beet-red face, squeals of fear and sniveling prayers.

Two stringy-haired but still attractive women were included in the group. We were told they were incorrigible prostitutes who had spread disease among many young soldiers. Half the time they were crying and wailing piteously and the other half they were shrilling the foulest curses I ever heard. They were dressed in what had once been pretty dresses but were now tattered. They had obviously struggled with a lot of prisoners or guards since their arrest. One of them had the top left half of her dress torn completely off and her round bosom was exposed as she marched. I noticed how it bounced as she walked but she didn't seem to be aware of it.

For the experiments in reviving soldiers after severe chilling or freezing, deep tanks had been constructed in the cement floor of the lab building. They were surrounded by refrigeration coils so that they could be brought down to any desired temperature and kept there by thermostats. Other tanks were equipped with heating coils to raise the water to any degree of heat in which to dip the frozen victims in revivial attempts.

The subject was to be dressed in a complete winter flying suit, connected to numerous electrical measuring devices to record blood pressure, pulse, internal and external temperatures, and then placed in the tank of freezing water until chilled almost to the point of death. Revival was to be attempted by various methods.

When all was ready in the laboratory I was sent to get the first subject. For the first few trials Dr. Rascher had specified individuals of average size and physical condition, so I picked out a well-built man of about 35, who seemed to be the most normal of the lot. He stood sullenly and silently in the tiny cage and I hoped it would be easy to get him upstairs and into the tank.

The SS men gave me his papers and when I saw that he was sentenced to be hanged for attacking and robbing an old man during a blackout I lost some of my early distaste for the job.

They opened the cage and when the guards tried to drag him out he struggled violently and began to sob and scream. Officials and guards had been warned to keep the experiments secret from the prisoners so there wouldn't be a lot of unnecessary fuss. But somehow word had gotten around that something extra horrible was lined up for the thirty-seven condemned. When this man saw my white coat he seemed to sense what was ahead and broke down completely. He cried, he begged, he wailed miserably, he shrieked and raged in terror-stricken bursts as they dragged him up the stairs. When they got him through the padded swinging doors into the blaze of lights in the laboratory, with its autopsy tables, the straps, the electrical devices and the gaping tanks of icy water, his ear-piercing shrieks became unbearable.

Dr. Rascher, the director, and his three assistants were visibly shaken. The doctor covered his reaction by assuming an air even more icy and efficient than usual and quietly ordered the subject gagged until the experiment was underway.

Strict orders had been issued that these subjects were not to be hurt or damaged in any way which might interfere with the results of the experiments A merciful shot of dope or even a blow on the head might have changed the reactions and were thus out of the question. The gag, however, could be removed during the experiment and would not change any vital condition.

Although the gag stopped the screaming we had a terrible struggle to force the man into the flying suit and still more trouble connecting the temperature indicators which would show the temperature of various parts of his body. Finally the last button was snapped, the last connection made, and the straps in place. The gag was removed and he was forced down into the freezing tank. His screaming stopped abruptly as the shock of the fearful cold smashed his nerves and produced a convulsive gasping and gulping for air. His eyes bulged insanely and his mouth stretched open with shock.

The sudden silence stunned us all for a moment and I remember one of the guards trying to make a weak joke but getting a sharp rebuke from the doctor. It was August and we were all sweating from the strain and struggle but there didn't seem to be any humor in it when the guard laughed and said: "He oughta be happy! He's the only one not suffering from the heat!"

The first shock in the subject gave way almost immediately to violent shivering, and I mean violent. It reached such strength that the head shook as much as two inches each way. The dials indicating his mouth, rectal and stomach temperatures were carefully watched and when the rectal indicator reached 26 degree C. we withdrew the frozen, unconscious body, still shivering, and immediately immersed it in another tank of very warm water.

Amazingly, his stomach temperature continued to drop for some minutes, even in the hot water. But after a while he began to show signs of reviving. He took a few convulsive, deep breaths, rolled his eyes up under the lids, and his face changed from a leaden blue to a purplish orange. Within fifteen minutes, when he seemed about to regain consciousness, he suddenly dropped into complete shock—and died.

While the autopsy was in progress Dr. Rascher ordered me to bring up another subject and the two women. The technicians had decided that too-rapid warming might have damaged tissues and vessels in the first subject and wanted to test, with scientific accuracy, the old trick of reviving frozen people with animal heat. This time the subject would be brought close to the point of freezing to death, then placed nude between the naked bodies of the women and the three wrapped in blankets.

I brought up the two women and a heavy-set male who had been selected. The man was a stupid clod without much imagination and was almost helping us. But the women, having little idea of the relatively easy role they had to play, were praying and crying shrilly. One of them begged to be killed quickly, but Rascher ordered all three gagged and proceeded with the experiment.

The three subjects were stripped this time for maximum effectiveness in conducting heat. With the perversity of human nature, one of the women, although a professional prostitute, suddenly became ashamed of her nakedness and made pitiful attempts to cover herself.

The male was connected to all the measuring instruments, then lowered into the tank of freezing water. His reactions were essentially the same as the first subject, but the women were terrified beyond description and imagined they were going to follow the man.

When the subject was close to the point of death his naked, leaden blue body was raised from the tank and placed on a blanket. The two nude women were then forced to press themselves up close to him on both sides and the blankets were then wrapped tightly around all three. The hope was that the animal warmth from the women's bodies would be exactly the right temperature to revive the subject safely.

The women were still gagged and the man was unconscious, so we were spared the ordeal of hearing anything except their gasps and muffled groans. As soon as the women recovered from the initial shock of contact with the chilled flesh of the man and from the fright of their imagined fate, they relaxed into a numbed silence. They tried to wriggle away from the cold body between them, but this couldn't be allowed, of course, so they were forcibly held against him at every point. He never regained consciousness, however, and his temperature continued to drop steadily until he died—still between the two women.

The women, now sobbing hysterically, were led out of the room and back to their cages below to await further use. The guards who took them down with me enjoyed pushing them along and putting their hands on interesting spots. The women didn't care; they were too glad to be alive.

It turned out that was the last of the experiments with the women. We found the solution to the problem the next day, after we lost two more men. The solution was a quick dip in hot water followed by a gradual warm-up.

The women, I heard, served prison sentences and were later released.

Unbelievable as it may seem, such inhuman experiments were carried on every day in Hitler Germany in the name of science.

THE END

ULTIMATE DANGER Continued from Page 16:

Perhaps even worse is the arrival of the power of MONEY in the process of husband selection. Our materialistic society has taught women to scorn the "irresponsible" young fighting man, and chase after the "security" of a finky grind who is willing to be a slave.

Finally, of course, there is the obvious evil of race-mixing. Three New York City JEWS who have been built up as our "authorities" on anthropology, (Franz Boas, Gene Weltfish and Ashley Montagu) have managed to spread the unbelievable myth that African savages WOULD be Beethovens and Shakespeares, had they not been so unfortunate as to have been born in the jungle.

All of this, and some other factors too numerous to mention in detail, has started humanity on the way back down the hill of evolution.

As I have tried to show with the example of the bugs, all living things can improve their BREED, --ONLY by eliminating those who FAIL, regardless of "excuses", --and even more important, by not letting failures and flops BREED more of their kind.

Humanity is now PROMOTING the failures by every imaginable means, and especially by use of modern science, coupled with the huge funds of the "humanitarian" foundations. At the same time, humanity is driving the best biological specimens out of existence with fratricidal wars, with shortsighted insanity that "intelligent" people should limit the size of their family to the number they can send to a Marxist training school (college) and with economic burdens of subsidizing the unlimited breeding of human garbage by the BILLIONS.

The real reason the Jews are such a deadly danger is not their numbers or even their own parasitic activities, but the fact that it is the Jews, above all, who inspire and lead this rebellion against the God-given laws of Nature Herself!

Humanity is a relatively RECENT development on this planet. The earth spun through space for billions of years before a single "human" could be found on its surface. And it is very likely to spin on into space empty of human life before too long, unless we can find the wisdom to SEE what we are doing, and the unselfish devotion to our RACE, to UNBORN millions, to see that they are bred from the BEST rather than the worst among us.

Adolf Hitler was the first leader on this planet to understand that fact and do something about it. And the swarming human garbage hates him with a burning passion for this above all.

# Federal Pomposity

It all began with the following:

Little Boy Blue, come blow your horn:
The cows are in the meadow,
The sheep are in the corn;
Where's the boy who looks after the sheep?
He is under the haystack fast asleep.

Ultimately a Washington bureaucrat took over:

"In accordance with the act of Congress of June 6, 1923, as amended, we have conducted an extensive inquiry into the need for an adequate signal system in meadows and adjacent territories. The whole matter of stabilizing practices in these areas is being processed with a view to attaining the objectives as stated in the directive of July 7.

Considering the matter in the over-all aspect, it is the conclusion of our policy committee, following repeated hearings, that the following steps are necessary to restore confidence and maintain morale:

1. Immediate stimulation of the entire horn-blowing project.
2. A study to determine standards with reference to the proper number of blasts to be blown when cows are in the meadow.
3. A signal system requiring a signal easily distinguishable from the former when the sheep are reported in the corn.
4. Authorization for a complete study of the whole farm situation, and a check-up of the bugle crisis, with possible freezing of bugle calls at April levels in accordance with the so-called Little Haystack Formula.
5. A congressional inquiry to ascertain the number of meadows in the country, the square miles of corn patches and the wandering habits of sheep and cattle.
6. A census to determine how many boys in the country are under a mandate to look after sheep.
7. A study to determine whether these boys are subject to abnormal indolence or excessive slumber.
8. An appropriation of five million dollars to provide adequate handling of the haystack matter, to assure an adequate distribution

of horns and to take all necessary steps to integrate, codify and coordinate all authorized operation.

For the purpose of keeping our files accurate, will you inform us of your correct name? It appears on our records as L. Boice Blow, Little B. Bloo and L. Ittle Boybluh.

U.S. Cow, Sheep & Haystack Administration,
Washington, D. C."

# Only Weaklings Are Cruel

Commanding the American Nazi Party has taught me some things you can learn neither in business, school or even the service. Every man who works for me, (often at the cost of jail, beatings, etc.) is a VOLUNTEER, --a TOTAL volunteer. I can offer him nothing in the way of pay or rewards, nor do I have a "brig" or "guard house", as do the services to keep THEIR "volunteers" "encouraged".

My lads can leave any time they feel like it, and the weak ones DO.

The boys who stay, who take the long hours of lonely, dangerous duty, who do the dirty KP, who take the "guff" from the non-coms, who have to sit out actions guarding the HQ while the rest are out pitching into the niggers or reds and who give up almost all the "fun" in their young lives and live without a penny in their pockets, these kids are MEN. They have taught me a lot of lessons about human character.

One of the most striking lessons in human character I have learned in the last six years while running this outfit is the almost perfect relationship between weakness and failure, --and cruelty.

Every single tough, hard MAN I have had here, --the guys who "make" it, --has been rough, but a born "gentleman". They may have had no education, they may use atrocious grammar, they may not even know how to read or write. Many of them have been in the jails and prisons.

But not ONE of the successful, TOUGH guys I have has ever been CRUEL. Not ONE has ever been a sadist or mean.

And, on the other hand, almost every one of the flops and/or weaklings I have seen go through here has had a CRUEL streak in him. The weaker they are the meaner they are. The cruelest and most vicious "man" I've ever seen here was Patrick (Patricia') Ryan, who was thrown out of here for turning queer. One afternoon, I heard howls of agony outside the barracks, and when I went out to investigate, I found Patricia viciously BEATING his two, beautiful police dogs. I don't mean he was "correcting" them --he was beating them sadistically and so viciously I tore into him and made him stop, even though they were his dogs. When I inquired what in HELL they had done to deserve such a savage beating, he said they wet on the floor!

It has been the same with many other of the would-be "Nazis" who have come here and failed. The weak ones are always the ones who bully and beat those weaker than they are.

The really STRONG MEN are always innately gentlemen. They use their force only when it is required and just, which, to me, is one of the chief marks of the "gentleman".

One of my best friends, and one of the real TOUGH guys I have ever known, is also one of the SOFTEST guys you'll ever hope to meet, loves animals with a real passion, and wouldn't hurt a FLY.

I have learned that when you meet a WEAK man, --or a FAILURE, --regardless of physical strength, --beware! But a successful man, be he only 97 pounds or a brute, -and a STRONG man, will not be cruel. And when I find a guy who HATES animals, I am 99% sure I have found a RAT.

# The Truth... Black Or White

Here's a quotation from an article called "I Believe the South Has Been Good to the Negro", by Negro Bishop C. Fain Kyle. He's black, but what he writes is the truth. In my opinion, patriotic groups with the money to do it should reprint this by the millions and see that every black in America gets a copy.

"As a Negro minister, born 64 years ago in Knoxville, Tenn., I know that the South is the best place in the world for Negroes.

Mississippi has 7,200 Negro school teachers, while Connecticut has 17.

There are more Negro homeowners in Atlanta, Georgia, than in the entire state of New York.

There are more Negroes who own and operate businesses in Mississippi than in Michigan.

In the South, the Negro has made more progress than any other race in history.

He would be making even more progress now, had not the civil rights agitators turned the love and respect many people used to feel towards my beloved Negro race, into hate and contempt.

As a Negro, I resent it when people say that my race needs special advantages and treatment.

To solve all its problems, the South needs only time and freedom from the ignorant meddling of outsiders.

If a White man said these things, people would accuse him of bigotry.

Because I'm a Negro, they call me an 'Uncle Tom'.

This label is supposed to mean that a Negro is a cowardly, slavish traitor to his race.

But people who talk this way have obviously never read 'Uncle Tom's Cabin', or they would know that Uncle Tom is a man of courage and strength.

In obeying the laws which made him a slave, and loving the master who mistreated him, Uncle Tom was only following the Bible, which teaches that one man or one race should never hate another, and that no man has a right to defy the law.

Today, an 'Uncle Tom' seems to be any Negro who does not want to go as far and as fast in winning integration as the racial agitators do.

Even if I wanted integration I would not try to force it on others as Martin Luther King and his followers are trying to do.

Not even God forces His will on those who resist.

In his attempts to force the White man to accept the Negro, King has been able to mislead many sincere but unstable people of both races.

Ministers, priests and rabbis have left their pulpits to create chaos on the streets and endanger their own lives.

In a few short years this man has brought the United States to the brink of race war and destruction.

Yet he has been awarded the Nobel Peace Prize, and is given more publicity than any other person in the world, including the President of the United States, the Queen of England, and the Pope.

Don't King's power and influence alarm you?

If not, perhaps you will be jolted to learn, as I was, that the Democratic ticket for 1968 is to be Hubert Humphrey for President, and Martin Luther King for Vice-President!!

I am convinced that the power which this man has gained makes him the most dangerous man in the world today.

And many people of both races, who share my alarm, have written me letters of sympathy and encouragement.

Among them are Gov. George Wallace of Alabama; Sheriff James Clark of Selma, Alabama; and Lester Maddox of Atlanta, Georgia.

It was Maddox who closed the doors of his successful restaurant rather than obey the government's unconstitutional order to integrate.

These men are all supposed to hate Negroes, and yet to me they have expressed their friendship.

Lester Maddox, who is as fine a Christian gentleman as I would ever want to meet, has offered to help me as much as he can.

But because he upholds the law and fights racial disorder, he and other men are branded as racists.

As a Southern Negro, I can tell you that Southern whites do not rule or control their Negro neighbors.

All they demand is that the Negroes don't steal from them or mess with their women.

If the Negro will follow these simple rules, then the Southern white will do anything to help him."

Here's a picture of a big Jew department-store owner, printed in the New York Jew "Examiner". I thought it was Lyndon when I first saw it, and am printing it because others might want to speculate on Lyndon Baker Jenkins ancestory.

# What's Wrong With Conservatives?

by Ray Horton

1. The Conservative does not want racial purity. He wants cheap nigger labor.

   It was the "Conservative" who brought the jigaboos to America in the first place. They drove out the poor whites who would have made a real "White South" with family-style farms, with people of real character and integrity.

2. The Conservative is not really religious. He peddles "Pie in the Sky" and not "The Kingdom Which is Not of This World".

3. The Conservative will not fight the Jews. He is tied up with them financially, and he licks their boots to gain trivial advantage. The Jews will cut his throat.

4. The Conservative in America has not preserved the character and integrity of the Aryan Race. Northern Europe is the world's great spawning ground of high civilization. The rich Capitalist in America has prefered to dilute the racial stocks of Northern Europe with the dregs of the world, in order to get "cheap labor". In the end, this is costly labor, since it destroys the life of the Nation.

5. The Conservative is not politically competent. He does not know how to devise a social legitimacy which will rally the masses to his banner.

6. The Conservative has separated himself and his interests from the people. He is willing to interbreed the white working class with inferior racial stocks, so long as HE makes a profit on the deal.

In the 1964 election, the Conservatives proved their failure. It will be the young, the rough, and the poor who will save America, and not the fatcats who lick the boots and kiss the buttocks of the yids. It will be the same as in Germany. It was Horst Wessel, not Fritz Thyssen, who broke the backbone of Yiddish power in Middle Europe. In spite of the loss of the war, Germany remains nearly Judenfrei. A Jew can open a store in Germany today, but he cannot hope to have many customers.

In one country, the thraldom of the Jews was broken. It can be done in America, but it will not be done by the Conservatives.

The Jew attempts by his ideological frauds to build a "mental cage" in which he can imprison all mankind. It should be the business of tough young intellectual to break the backbone of the Jewish intellectual system. We have no time to look after the financial interests of people who play footsie with the yids. We will not spend our time on any such thing.

The Jews will not like us. The fatcats may not care for us. BUT WE ARE THE PEOPLE WHO ARE GOING TO WIN. National Socialism is the politics of the Twentieth Century.

# Welch Speaks

Last night I heard Robert Welch speak (for the first time in my experience) at nigger Howard University here in Washington, D. C.

This pink-faced multi-millionaire spoke to the assembled niggers on the subject of "A Touch of Sanity". You can imagine the effect of this on the black mob, -when he explained that he was coming down there to preach "sanity" to them!

Then he told them that niggers in the USA and other parts of the world were really very happy and content, but that the communists were terrorizing them into believing they were poor, and discriminated against. The effect of THIS was predictable, of course, and I squirmed inside to see him make such an ass of himself. Lots of those niggers in the audience lived in the area all around Howard University in some of the most miserable slums you've ever seen. Nobody has to "terrorize" them into believing their living conditions could be better, and to have a pudgy, pink millionaire stand up there and tell them they were actually "content" and "happy" was the real insanity of the evening.

The whole thing was disgusting and drove home to me once again the suicidal madness of the "conservatives" in approaching the masses of the people with their "let them eat cake", laissez-faire, every man for himself "freedom" pitch, and tell them, like Goldwater, they should go and get their own department store.

In addition to the foolishness of his pitch, he used tactics with that college and black audience which could not have been better calculated to get him run off the platform. At a Jew school, Welch WOULD have been run off the platform. Jews are utterly vicious with their "brotherhood" "protests". But the niggers, when not agitated by a Jew, are too lethargic and easy-going to raise Jewish-type hell with a speaker. Those niggers were downright courteous, and Welch survived. Had he done the things he did in that speech at one of the big Northern Universities where I have spoken, they would have HOWLED him into silence. For instance, instead of beginning his speech right away when he was introduced, he explained that his eyes were weak and flash bulbs hurt them, so he would pose for a while so all the pictures could be taken at once. The students realized this was a dodge, of course, but the niggers gave him amazing leeway. So he posed up there while silence prevailed and he was ASKING for a heckling bombshell from the audience. Had we been there to heckle, he would have perished miserably. Then his whole speech was couched in the language of the National Association of Manufacturers, far above the heads of those college niggers, who consider M-F- to be a drawing-room word, and usually use much viler language for everyday use. His tone was so dry, dusty and monotonous that I found it hard to follow him myself, sometimes.

The high, -or low, -point of the speech was when he put on an exhibition of fumbling which not even Robert Benchley could have equalled. So help me, this is actually what he DID:

Somebody challenged his statement that the negroes were actually happy and satisfied and were being terrorized into imagining they had it tough, etc. He got excited and sputtered that he had the actual documents and would PROVE it. His bag was behind him on a chair, but instead of lifting it to the podium as I have learned to do in such cases, Welch turned around, bent over, and presented his posterior to the audience in the finest tradition of a Mack Sennet or Laurel and Hardy comedy scene, just BEGGING for a pie or other bit of slapstick.

Solid minutes ticked by as we all sat there in silence, --thousands of niggers, a few Birchers and Nazis, -while Mr. Welch's bottom waved around in his frantic search for his documents in the bag on the chair. I was just about to BUST with embarrassment, when he finally turned around, ....without the document.

"Well I can't seem to find it. . funny, .. I HAD it right here. I know I put it IN there. . . . . . It's GOT to be in there. And he turned around for more bottom-waving and bag-digging.

Once again, he swiveled around with no document. Undaunted, he persisted, "Well I can't seem to find it at the moment, but we printed two hundred and forty thousand of them, -it's called, ...er, ... ...ummmmm. . . can't seem to recall the name of that booklet.... and we printed two hundred and forty thousand.... I OUGHT to remember the name ...let's see, it was, ...well, I just can't recall the name even though we printed two hundred and forty thousand of them, ....funny, it was on the tip of my tongue... now what WAS it,,, ..."

I am not exaggerating! There was actually more of this than I have set down. I will give the old boy credit, he finally DID find the booklet and hold it up in "triumph"! But can you imagine a man who puts on such an unprofessional and utterly ridiculous performance claiming that the Communists pay ME to speak at colleges INSTEAD of Welch and his ilk, so that I will "discredit" the right wing, and prevent Welch from giving what they call "an effective presentation"!!!! That's what they are putting out.

I will not be as cruel and stupid to Welch as he is to me and claim the reds pay HIM to make a fool of the rest of us.

They don't HAVE to pay him to do it.

He does it FREE!

# 9 Lives Of Malcolm X

Somebody gave one of the stormtroopers a black kitten a year or so ago, and he named it Malcolm X. It was cute for a while, but then, just like a lot of "cute" pickaninnies, it grew up to be a big, bad, hateful Tomcat which bullied all the other animals around here, and killed a lot of tiny creatures, --with the exceptions of rats and mice, which were not to Malcolm's taste. Malcolm's owner was transferred and the big, black ugly critter became a misery around here. It was decided to deliver Malcom to the local Pound.

When the boys took Malcolm in, the attendant was a nigger, who asked the cat's name. Told it was "Malcolm X", the highly insulted coon almost refused to do his duty, finally settled for "You guys think it's cute or sumpin' to make me gas Malcolm X!"

# America Needs A Father

The more I experience of our screwed-up world, the more I realize that almost all our social troubles can be traced directly to what I can only call "spoiling" of our whole people.

As most readers know, and I must sadly confess, I have had two families. And with both of them, I learned that I had to FIGHT to give my kids the benefit of discipline and control.

Even more important, I had to fight to give them a FATHER.

If I had bowed to the demands of their mothers, I would have had to become a sort of handy man and play-school director. Any effort to DE-

MAND anything of the kids was treated by the mothers as a manifestation of dictatorial brutality and an indication of my desire to be a beast.

I remember one particular instance when two of my little angels, (and I loved and love my kids as much or more than any man alive) were putting on a theatrical TANTRUM of screaming and kicking to get some particular demand they had made which had been refused.

My "treatment" for such exhibitions was an immediate and brisk SPANKING, which always did wonders. Always, mother would hover around during the administration of this "treatment", moaning and holding her face in her hands, swearing that I was "killing" the little darlings.

The one particular time I have in mind, their mother had tried to bring them some goodies and vitamins while they were still in bed on a Sunday morning (as I was, too). They had flung the vitamins at the wall and when told by mother that they would thereupon be confined to the room, they proceeded to "show" her, by wild screaming, that she had better abandon any such stern measures.

When I leaped out of bed and marched on the scene of the action, I discovered mother heroically standing in the doorway, a wide-eyed look of utter horror on her face.

"Don't you TOUCH those girls!" she flung at me! "I'll not have them brutalized!"

I never laid a hand on my wife, so I was taken aback at this situation, for a moment. It was an ultimatum. Either grab Mamma and shove her aside to administer justice, or abandon principle and discipline.

Believing in long range goals, not short range peace and ease, I chose principle.

I gently picked mother up and set her to one side, in spite of moderate resistance, and marched in upon the mutineers, who promptly began to holler in earnest, this time, "Daddy! Daddy! Don't spank us! We'll be good!" etc etc.

Paying no attention to this belated attack of conscience, I laid on the two, plump little fannies with a will, and the screams were thoroughly genuine, although not caused by any real damage.

Immediately upon completion of this performance, silence reigned in the area. They well knew that FURTHER screaming would be considered just cause for ADDITIONAL spanking, and so on until law and order --and peace --was restored.

Mother fussed around about the "outrage" for a while, but the blessed peace and good order soon did the expected wonders for her disposition, and we soon had a happy, laughing FAMILY again.

My kids had no less love for me because they respected me than the pappas I saw all around me who let their kids run wild. In fact, I think it was quite the other way around. The "fathers" who tried to "buy" the love of their kids with indulgences, lollypops and no discipline got "love" only for the few moments when the gravy was being passed out. Not only that, but I observed that the lollypops had to always get bigger and bigger to put down bigger and bigger tantrums.

I could and did take my kids ANYWHERE, such as into the best restaurants, and they would sit so quietly and with such good nature that the rest of the customers always came by to compliment my wife and I. (And the kids noticed and appreciated it, too.)

I have not written all this into a ROCKWELL REPORT because I am overflowing with sentimentalism nor to indulge my own love of raconteurism.

All of the foregoing has been written here only because I believe it is a stark and simple demonstration of why America and the White Man are going to pot.

Just visit the home of some family where the father is a worm, and you will see a scale model of America, --especially American YOUTH, today. The brats demand and get the moon, and then have a fit because there isn't whipped cream on it! The "father" is a joke in nine-tenths of such families. He is scared to death of not only Mamma, but the kids too. The whole place is a scene of wild, dreadful ANARCHY. Everybody in it is miserable, including the "lucky" wife and kids who have such an indulgent father.

The fault lies not with the mother or the kids. God made them as they are. He also made the MALE to be a MALE, not a worm. All throughout Nature, which is God in action --you will see that ORDER in the family group is the product of the MALE, the "Father". Any lack of order is quickly straightened out by the FORCE given to the MALE for just that purpose, among others.

The female's instincts are to protect, to nurture and, yes, even to spoil. A woman would not be truly "female" if she were able to maintain iron rule over a family. Such a woman is an abomination to Nature and the Lord, --although some unfortunate women have been FORCED into this miserable position by the cowardly abdication of function by the sorry kind of "males" found all over America today.

A "female" is designed to be soft, gentle, sweet, kind and loving --especially to her kids. And a real man seeks this sort of woman for a wife and mother of his kids. Nature never intended her to be any kind of "boss" --else she would have given women the physical strength to carry out her purpose.

But when the "male" in the family deserts his post, abdicates his power, and becomes a crawling, snivelling worm, the mother is FORCED, often to become a sort of imitation "man", from which may God protect me, (at least).

The alternative is for the family to become a miniature "Berkeley" -- a model anarchy, with nobody RUNNING THINGS.

I do not blame women one bit for this deplorable state, no matter which course they choose. Men were given the power and the force to maintain order, dignity and peace in a family. If they haven't got the guts to DO it, and the unhappy woman tries to do it herself, or fails, then it is not her fault, but the fault of the miserable CREEP posing as a "man" who is her husband.

(I can imagine this may lose me a lot of friends. But so does it lose me friends to tell the truth about the Jews or anything else. I am not in "business" to say sweet things to "win friends" but to TELL THE TRUTH!)

And the truth is that millions and millions of Americans, especially youth today, are suffering bitterly because America has almost no FATHERS anymore.

This has become a nation of anarchists, fairies, unwomanly women, unmanly men, characterless worms and, especially, WILD KIDS!

I am not saying that ALL Americans have succumbed to this moral and spiritual rot.

There are plenty of good folks who do their best to maintain good families and be good men, good women and good kids. What I am blasting is the TREND, the majority! MOST husbands today are AFRAID TO BE "FATHERS". MOST kids, today, have never learned discipline and ORDER. Too MANY women, today, have been forced to become top sergeants in their own homes, because Pappa is a WORM.

"Juvenile" delinquency is no new development. ALL kids are born little "delinquents" who will go as far as they can. That's not "hate". MY kids did the same. So did yours. The difference between a "delinquent" who shows up in the police courts or the electric chair and your kids and my kids is that mine, at least, found out EARLY that society can't tolerate some of the desires and drives of all human beings --at least not in raw form.

A good FATHER in a home teaches that stern lesson to not only his kids, but his WIFE, when necessary, because of her natural, God-given instincts to pet the kids. When the kids never learn law and order, when they, instead, learn from their "father" that they can "get away" with anything, when there is always "Mamma" to get them out of hot-water, and finally "Dad" to "fix things up" with the local "fuzz", and when they reach adolescence still believing they have the "right" to do as they damned well PLEASE, God help all the rest of us!

Most of the blame for this deplorable state rests on the Jewish liars on TV, in the movies, etc. who never fail to depict the American "father" as a helpless, stumbling cretin and a weak JERK of the most ludicrous kind. Just as you never see a nigger doing anything wrong in the movies or TV, you never see a "father" doing anything RIGHT.

Nor is it "fathers" alone who are the targets of the Jews who control what we worship in America as our "heroes" and "symbols".

ANY AUTHORITY figure is always denigrated and scorned, if not depicted as an outright DEVIL. The only kind of "cops" and "judges" on TV who are heroes, are the ones who are PERMISSIVE, the ones who let the teenage mugger loose, because his folks were in a concentration camp, or because he lives in "poverty", etc.

The permissive "mother" image is the big thing today. This goes so far that it carries over into the image created of whole people and nations --even cities.

We never hear the end of how WONDERFUL "Paris" is. We are taught from the very crib that EVERYONE wants to go to Paris. Paris in the spring, the Montmarte, the "Follies", etc. until it would be sickening if folks THOUGHT about it.

Nobody puts on such hysterics about BERLIN!

Long before the war, the very name of "Berlin" evoked images of "dirty Huns" and brutal "Germans", "Prussians" and rotten "militarists", monacles, swagger sticks and a certain air of FEAR.

Have you ever noticed that Germany is called by its patriots, the FATHERland" --while most other nations refer to their countries as "MOTHERland"?

Germany IS a "Father"land, it is MASCULINE, TOUGH, HARD.

"Paris" is the very image of softness, weakness, indulgence and even depravity.

While the average American, I am sure, will accept this contrast I am making as "hate", I hope our well-trained, highly informed readers will see what I am trying so hard to show, that the propagandists have done their damndest to make us almost WORSHIP the permissive, weak, and even degenerate image of Jew-ridden Paris and France --(which has had THREE Jew heads of State!), while the masculine, tough, driving nation of GERMANS is presented to us just the way a real FATHER is presented to us on our TV screens, as a BULLY, a BRUTE and a despicable, all-around louse to be hated and even feared.

Long ago, I wrote a ROCKWELL REPORT on being a MALE, in which I pointed out that the same thing which makes a good leader --namely an artful combination of LOVE and FORCE --also makes one a good lover and father.

The Jews KNOW this, and they have therefore brilliantly CUT OFF, amputated exactly ONE HALF of what America needs to survive, and cast it aside into the garbage bucket as "hate".

Our kids and our people need LOVE --that's for sure. A life without love is as near death as you can get and still wiggle your toes and fingers.

But a life without FORCE is just as DEAD. And it is FORCE, STRENGTH, and AUTHORITY which has been withdrawn from our people, especially our kids. Our youth today have almost never KNOWN FORCE. And he who knows only love, without force, knows NOTHING.

When you walk into a family with no real father, where the kids are spoiled rotten, screaming, throwing things and attacking visitors, (which all of us have experienced) --then it takes more FORCE than necessary to restore order.

If a decent father can bring up his kids from the cradle, by the time they can talk, they already know they can't "get away" with tantrums and bullying their mother, and there is no real trouble. But when a kid has reached the age of fifteen or twenty believing SOMEBODY will get him out of ANYTHING he does, then it is going to take quite a powerful BELT to show him the realities of life.

It is the same with whole nations.

Several generations of Americans have now grown up believing they can buy their way out of difficulties, they can defy police authority, they have "rights" to whatever they WANT, etc etc. This is especially true of our colored "brothers".

From the President on down, the blacks have been SPOILED now, for twenty or thirty years.

The results showed up, for one example, in Los Angeles. That was a TANTRUM of a mob of SPOILED brats --all grown up and running around with guns, bombs and burning gasoline.

Those spoiled people need one HELL of a "spanking" --but they won't GET it. Instead, the same femininized and Jewized fatheads who caused the riot will now heap more tinder on the fire by spoiling the black brats some MORE. They are already pouring in the food and other help so that the spoiled blacks won't suffer any of the natural results of their deadly "tantrum". They are even trying to turn the killers, burners and beaters LOOSE again, since their crimes were, of course, caused by the "heat" and "poverty", etc.

And the "juveniles" who are beating and blasting their way across America, on motorcycles and with guns and knives, will go on, getting worse and worse, killing and injuring thousands of innocent people, and HATING THEMSELVES --while they blindly and instinctively search for somebody with the strength and the guts to STOP them, -just like a psychotic strangler.

In short, America needs a FATHER --not a "father image" such as the Jews on Madison Avenue have made of Lyndon Johnson, but a stern, LOVING, but DEMANDING LEADER who can and will restore order, dignity and love to our wasteland of anarchy and simpy fake "love".

The sad, pitiful thing about this is that the few who instinctively realize this --the so-called "extremists", "rightists" and "super-patriots" all holler for a "leader". "God give us MEN", they cry! They know in their hearts that all I have written is true, bitterly true. They know it is going to take a TOUGH GUY, a man of FORCE, to do anything at all with the degenerate mess in America.

But let such a man show up, and these same people holler just like my kids used to yell, "DADDY! DADDY! Don't spank us! We'll be good!"

The ONLY reason anybody needs a teacher or a "leader" is to MAKE them do what they know they should do, but won't, all by themselves. You could get a full college education if you had the self-discipline, as some men have, to devour the encyclopedia all by yourself. But most of us need the prodding of a "teacher".

In the same way, most of us can't resist breaking some of the laws, even though we are for law and order, and need POLICEMEN to pinch us, from time to time for speeding, overparking, etc. --which we don't want others to do, but do ourselves.

Politically, America desperately needs a LEADER, a MAN, an old-fashioned, stern but loving MAN such as our forefathers were, to bring the mobs of wild teen-agers to a short stop, to restore ORDER to society, to give permanance and dignity to life in the USA, to make our streets safe for our women, to use our armed might to see that no American, anywhere, is insulted, killed or imprisoned by arrogant communists, to smash the swarms of Criminals, and to restore the principles of Anglo-Saxon justice embodied in our Constitution.

No PAPER or "law" can do this. Only a MAN can do it.

And no weakling or worm of a man can do it either. It took a HITLER to accomplish it when Germany was in the wild shape we are reaching.

That's why the tormentors HATE him so violently. He was a stern FATHER to Germany, and stilled the tantrums of Communist labor, the degenerate tittering of the queers, the brutal commercialization of vice and degeneracy of the Jews and all the rest of what WE HAVE HERE NOW.

It will take some sort of a "Hitler" to restore order and dignity to life in America, whether we like to admit it or not.

But the very people who should be preaching that the loudest and searching the hardest for a LEADER are doing their level best to help the Jews SMASH any possibility of the rise of a leader.

The whole rightwing repeats like some kid's jingle, "more individual freedom"---even while the Jews and Reds in Berkeley are manifesting SO MUCH individual freedom that they demand the right to parade around with signs reading "F---" among many other examples of rampaging "individual freedom."

Spoiled kids in a spoiled family have plenty of "individual freedom." What they need is some respect for the freedom of the OTHER people, but most of all, respect for the AUTHORITY of those in charge.

Not one single right-wing outfit except the American Nazi Party has the nerve to preach THAT! Not one other right-wing outfit dares back up AUTORITY and the FATHER. They're all hollering "freedom" just like the coons and liberals. It's time to "spank" our spoiled kids, take away about 85% of the phony "individual freedom" they have swiped, freedom to be immoral, criminal and vicious.

It's time for some REAL LOVE, not the Jewish, Hollywood variety which equates love with INDULGENCE.

It's time for what MEN are left in America to love their women and kids enough to act like our foreFATHERS, for a change--to quit being afraid of their own women and kids and restore order, authority and REAL FREEDOM to our perishing America.

# Fields Apologizes

On the next page I reprint Edward Field's retraction in the libel suit I filed against him exactly as it appears in his "Thunderbolt" newspaper for October.

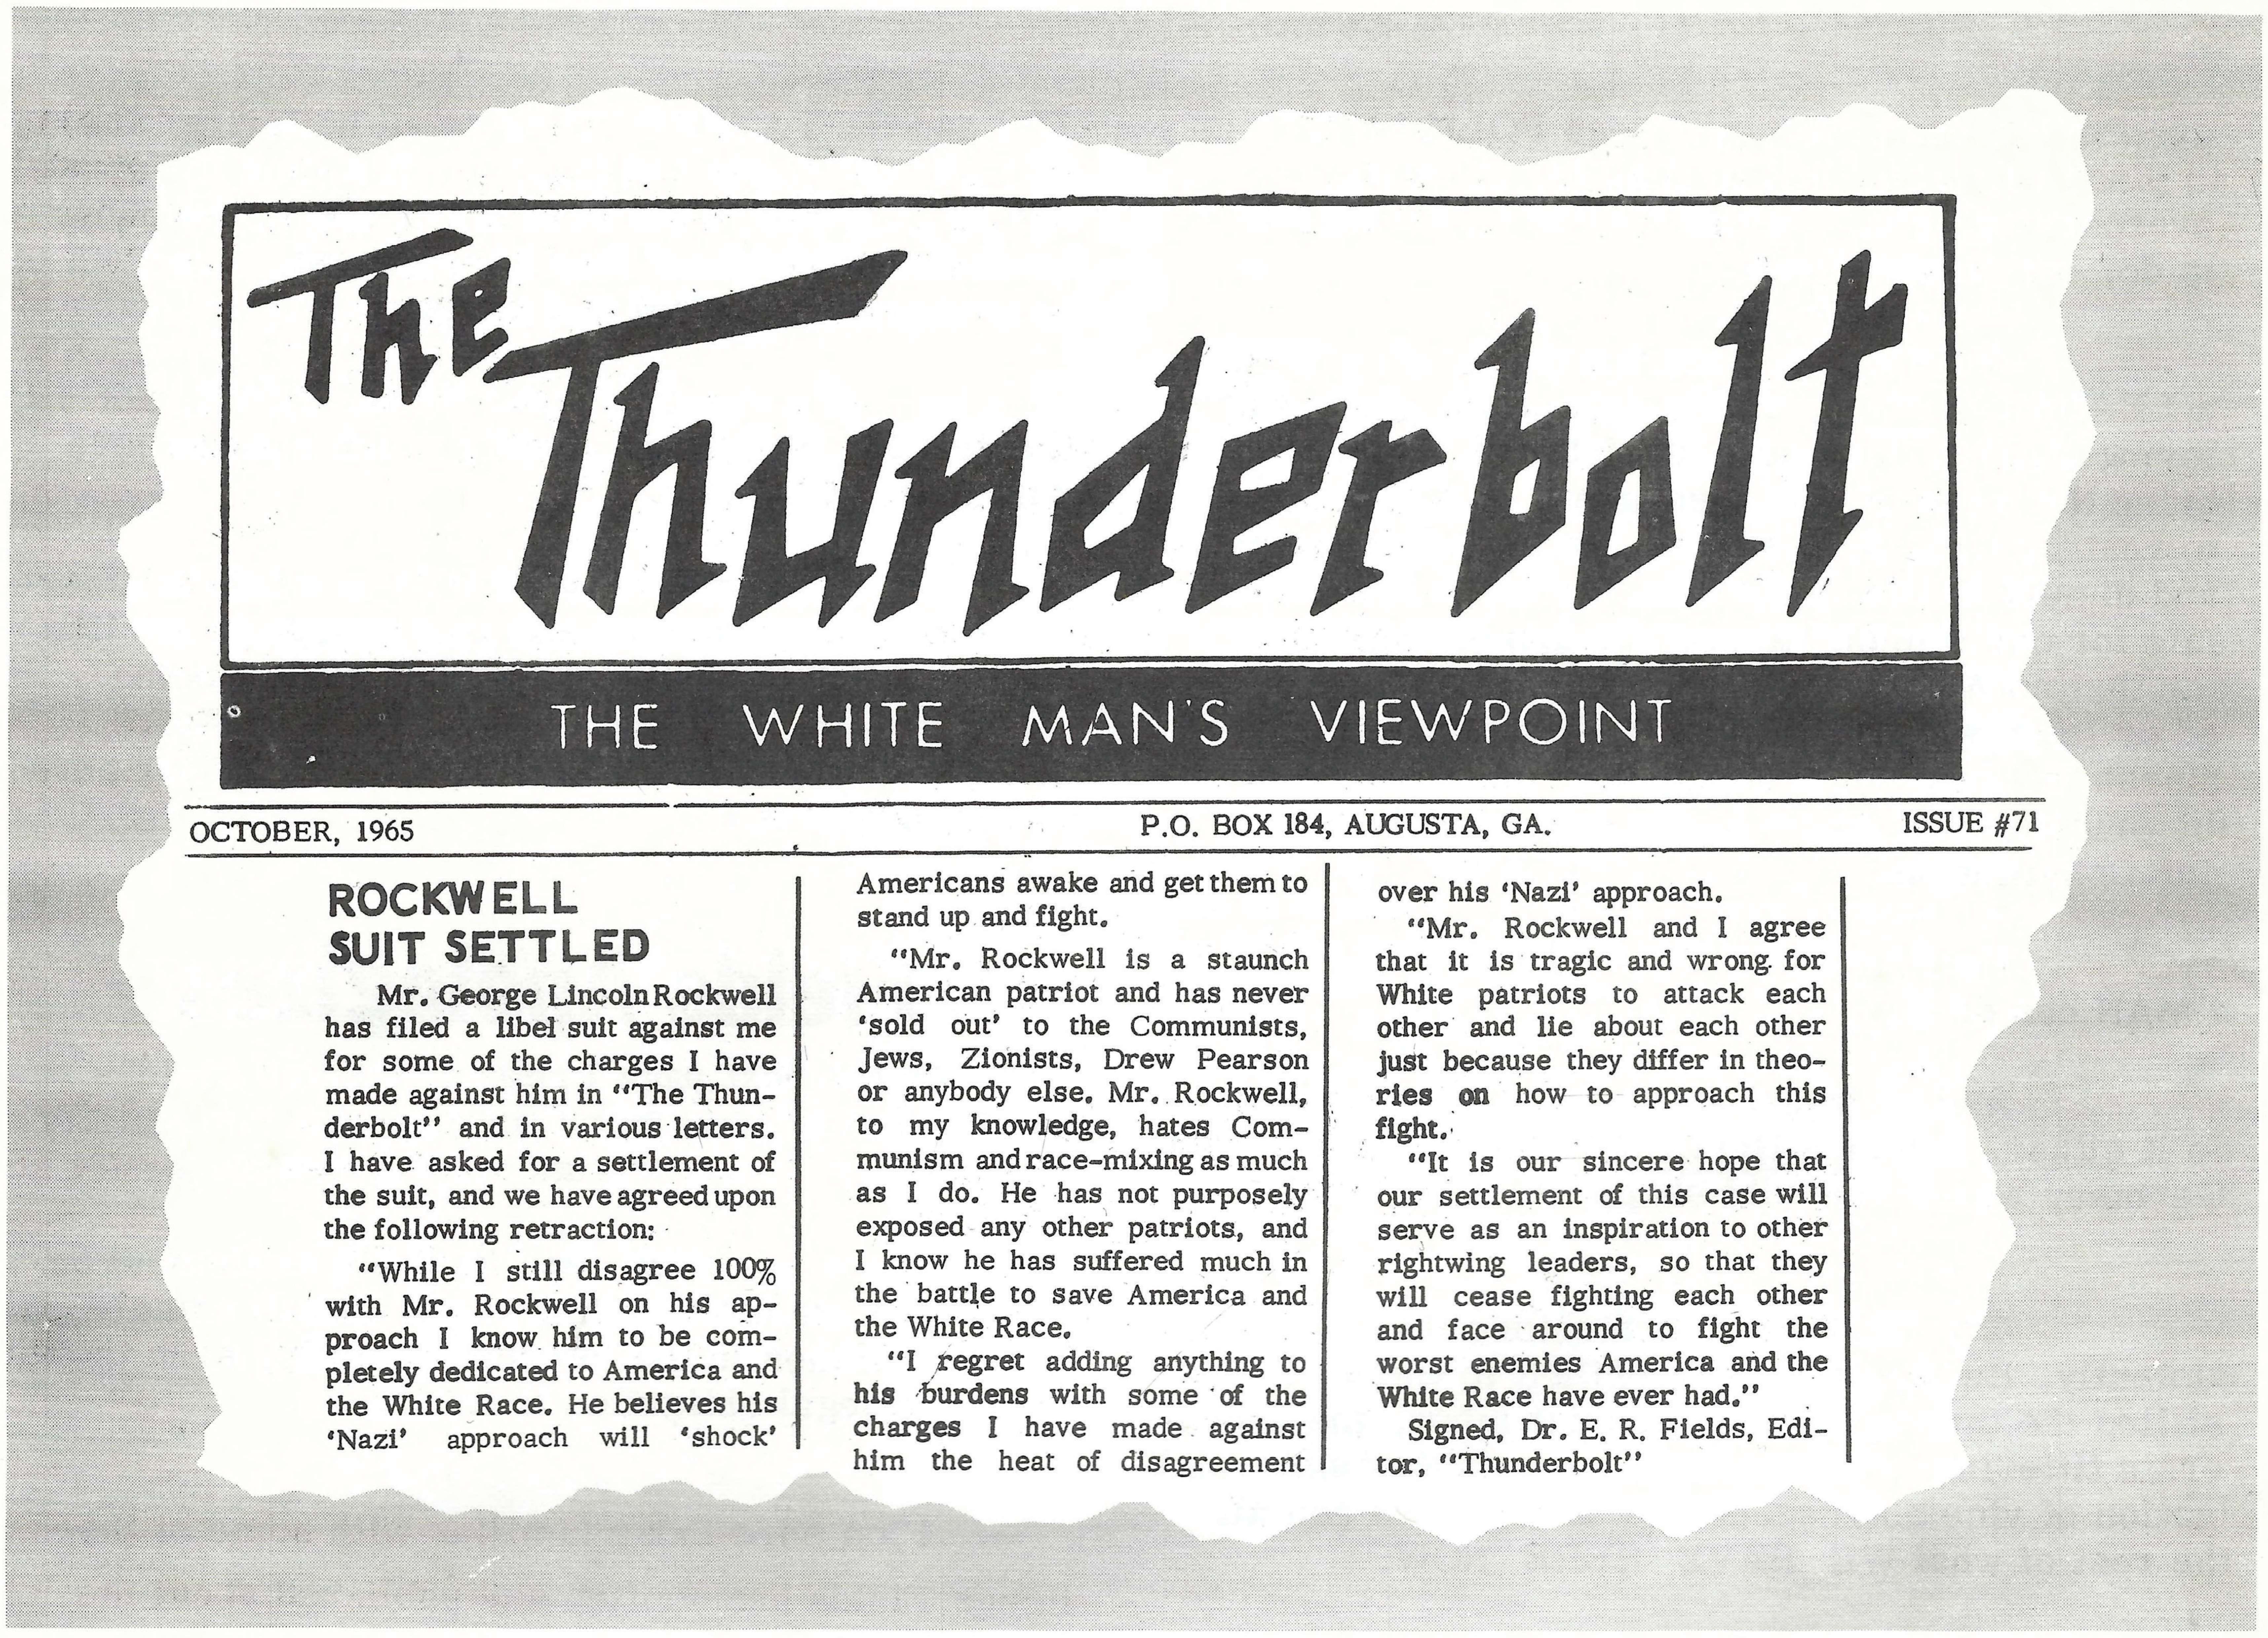
There are some details of the settlement he has asked me not to publish, and I shall comply with his wishes in the interest of amity, even though I have no legal obligation to do so.

I am sure those familiar with some of the things Fields has written and published about me in letters and his paper will understand that I might be excused for a natural desire to "rub it in". But I will not only not do so, I will use the occasion instead to appeal to ALL White, Christian patriots to cease the damnable internal warfare that goes on all the time among us over TACTICAL differences, personality clashes and plain, old-fashioned, green-eyed jealousy.

I am more grateful than I can express that Fields has settled this disgraceful brawl which did NOBODY but the enemy any good.

I will go further. I will commend him on the growing excellence of his newspaper and wish him all success. God knows, there is unlimited room for as many right-wing, patriotic, White, Christian leaders as this dying America can find.

And this childish business of every right-wing leader calling anybody to the RIGHT of him a lot of names, including "communist agent", -just to placate the Jews, niggers and leftist press and to prove that "we ain't Nazis", or "we ain't anti-semites", or "we aint Birchers", etc, as the case may be, is naked insanity.



# The Thunderbolt

THE WHITE MAN'S VIEWPOINT

OCTOBER, 1965 P.O. BOX 184, AUGUSTA, GA. ISSUE #71

## ROCKWELL SUIT SETTLED

Mr. George Lincoln Rockwell has filed a libel suit against me for some of the charges I have made against him in "The Thunderbolt" and in various letters. I have asked for a settlement of the suit, and we have agreed upon the following retraction:

"While I still disagree 100% with Mr. Rockwell on his approach I know him to be completely dedicated to America and the White Race. He believes his 'Nazi' approach will 'shock' Americans awake and get them to stand up and fight.

"Mr. Rockwell is a staunch American patriot and has never 'sold out' to the Communists, Jews, Zionists, Drew Pearson or anybody else. Mr. Rockwell, to my knowledge, hates Communism and race-mixing as much as I do. He has not purposely exposed any other patriots, and I know he has suffered much in the battle to save America and the White Race.

"I regret adding anything to his burdens with some of the charges I have made against him the heat of disagreement over his 'Nazi' approach.

"Mr. Rockwell and I agree that it is tragic and wrong for White patriots to attack each other and lie about each other just because they differ in theories on how to approach this fight.

"It is our sincere hope that our settlement of this case will serve as an inspiration to other rightwing leaders, so that they will cease fighting each other and face around to fight the worst enemies America and the White Race have ever had."

Signed, Dr. E. R. Fields, Editor, "Thunderbolt"

# Jewels From MEIN KAMPF

Ever since most of us read Mein Kampf we have dreamed of "boiling down" some of the genius of this most maligned book of our times so that perhaps a few who are too lazy to read the whole book will be led to do so after seeing some of what it really contains.

I myself have started such a project many times, but have never completed it. So have most of the officers here and many of our members around the country.

What follows is the compilation of gems from Mein Kampf made by Charles Graul, until recently a close associate of Roy Frankhouser, present Grand Dragon of the Klan in Pennsylvania, in whose home Dan Burros shot himself.

Graul's choice of "gems" may not parallel your own choice or mine, but at least he is the first man among us to have actually completed the task. I am therefore printing this piece with the reservation that it is not considered definitive or complete by the Party and the announcement that sooner or later, we will publish a pamphlet of "Mein Kampf for the Masses".

(We would appreciate comments on this collection and also any selections of your own which you feel should be included.)

Jewels from MEIN KAMPF begin on the next page.

Preface: I know that men are won over less by the written than by the spoken word, that every great movement on this earth owes its growth to great orators and not to great writers.

Page 14: Few teachers understand that the aim of studying history can never be to learn historical dates and events by heart and recite them by rote; that what matters is not whether the child knows exactly when this or that battle was fought, when a general was born, or even when a monarch (usually a very insignificant one) came into the crown of his forefathers. No, by the living God, this is very unimportant.

To "learn" history means to seek and find the forces which are the causes leading to those effects which we subsequently perceive as historical events.

The art of reading as of learning is this: TO RETAIN THE ESSENTIAL, TO FORGET THE NON-ESSENTIAL.

Page 29: Just as Nature does not concentrate her greatest attention in preserving what exists, but in breeding offspring to carry on the species, likewise, in human life, it is less important artificially to alleviate existing evil, which, in view of human nature, is ninety-nine per cent impossible, than to ensure from the start healthier channels for a future development.

Social activity must never and on no account be directed toward philanthropic flim-flam, but rather toward the elimination of the basic deficiencies in the organization of our economic and cultural life that must--or at all events can--lead to the degeneration of the individual.

Page 42: The psyche of the great masses is not receptive to anything that is half-hearted and weak.

Page 44: Terror at the place of employment, in the factory, in the meeting hall, and on the occasion of mass demonstrations will always be successful unless opposed by equal terror.

Page 62: The great masses could be saved, if only with the gravest sacrifice in time and patience. But a Jew could never be parted from his opinions.

Page 65: The Jewish doctrine of Marxism rejects the aristocratic principle of Nature and replaces the eternal privilege of power and strength by the mass of numbers and their dead weight. Thus it denies the value of personality in man, contests the significance of nationality and race, and thereby withdraws from humanity the premise of its existence and its culture. As a foundation of the universe, this doctrine would bring about the end of any order intellectually conceivable to man.

And as, in this greatest of all recognizable organisms, the result of an application of such a law could only be chaos, on earth it could only be destruction for the inhabitants of this planet.

If, with the help of his Marxist creed, the Jew is victorious over the other peoples of the world, his crown will be the funeral wreath of humanity and this planet will, as it did thousands of years ago, move through the ether devoid of men.

Eternal Nature inexorably avenges the infringement of her commands.

Hence today I believe that I am acting in accordance with the will of the Almighty Creator: by defending myself against the Jew, I am fighting for the work of the Lord.

Page 78: The Western democracy of today is the forerunner of Marxism which without it would not be thinkable. It provides this world plague with the culture in which its germs can spread.

Page 82: For there is one thing which we must never forget: in this, too, the majority can never replace the man. It is not only a representative of stupidity, but of cowardice as well. And no more than a hundred empty heads make one wise man will an heroic decision arise from a hundred cowards.

Page 88: Sooner will a camel pass through a needle's eye than a great man be 'discovered' by an election.

In world history the man who really rises above the norm of the broad average usually announces himself personally.

Page 96: In general it should not be forgotten that the highest aim of human existence is not the preservation of a state, let alone a government, but the preservation of the species.

Human law cancels out state law.

And if a people is defeated in its struggle for human rights, this merely means that it has been found too light in the scale of destiny for the happiness of survival on this earth. For when a people is not willing or able to fight for its existence--Providence in its eternal justice has decreed that people's end.

The world is not for cowardly peoples.

Page 105: If the struggle for a philosophy is not led by heroes prepared to make sacrifices, there will, in a short time, cease to be any warriors willing to die. The man who is fighting for his own existence cannot have much left over for the community.

In order to maintain this requirement, every man must know that the new movement can offer the present nothing but honor and fame in posterity. The more easily attainable posts and offices a movement has to hand out, the more inferior stuff it will attract, and in the end these political hangers-on overwhelm a successful party in such number that the honest fighter of former days no longer recognizes the old movement and the new arrivals definitely reject him as an unwelcome intruder. When this happens, the 'mission' of such a movement is done for.

Page 107: Only a storm of hot passion can turn the destinies of peoples, and he alone can arouse passion who bears it within himself.

It alone gives its chosen one the words which like hammer blows can open the gates to the heart of a people.

But the man whom passion fails and whose lips are sealed--he has not been chosen by Heaven to proclaim its will.

A movement with great aims must therefore be anxiously on its guard not to lose contact with the broad masses.

It must examine every question primarily from this standpoint and make its decisions accordingly.

It must, furthermore, avoid everything which might diminish or even weaken its ability to move the masses, not for 'demagogic' reasons, but in the simple knowledge that without the mighty force of the mass of a people, no great idea, however lofty and noble it may seem, can be realized.

Page 116: When Church dignitaries make use of religious institutions or doctrines to injure their nation, we must never follow them on this path and fight with the same methods.

For the political leader the religious doctrines and institutions of his people must always remain inviolable; or else he has no right to be in politics, but should become a reformer, if he has what it takes!

Page 118: Once the wavering mass sees itself in a struggle against too many enemies, objectivity will put in an appearance, throwing open the question whether all others are really wrong and only their own people or their own movement are in the right.

And this brings about the first paralysis of their own power. Hence a multiplicity of different adversaries must always be combined so that in the eyes of the masses of one's own supporters the struggle is directed against only one enemy. This strengthens their faith in their own right and enhances their bitterness against those who attack it.

Page 132: While Nature, by making procreation free, yet submitting survival to a hard trial, chooses from an excess number of individuals the best as worthy of living, thus preserving them alone and in them conserving their species, man limits procreation, but is hysterically concerned that once a being is born it should be preserved at any price. This correction of the divine will seems to him as wise as it is humane, and he takes delight in having once again gotten the best of Nature and even having proved her inadequacy. The number, to be sure, has really been limited, but at the same time the value of the individual has diminished; this, however, is something the dear little ape of the Almighty does not want to see or hear about.

For as soon as procreation as such is limited and the number of births diminished, the natural struggle for existence which leaves only the strongest and healthiest alive is obviously replaced by the obvious desire to 'save' even the weakest and most sickly at any price, and this plants the seed of a future generation which must inevitably grow more and more deplorable the longer this mockery of Nature and her will continues.

Page 132 Cont.: And the end will be that such a people will some day be deprived of its existence on this earth; for man can defy the eternal laws of the will to conservation for a certain time, but sooner or later vengeance comes.

Page 135: No one can doubt that this world will some day be exposed to the severest struggles for the existence of mankind. In the end, only the urge for self-preservation can conquer. Beneath its so-called humanity, the expression of a mixture of stupidity, cowardice, and know-it-all conceit, will melt like snow in the March sun. Mankind has grown great in eternal struggle, and only in eternal peace does it perish.

Page 150: The Jewish state was never spatially limited in itself, but universally unlimited as to space, though restricted in the sense of embracing but one race. Consequently, this people has always formed a state within states. It is one of the most ingenious tricks that was ever devised, to make this state sail under the flag of 'religion', thus assuring it of the tolerance which the Aryan is always ready to accord a religious creed. For actually the Mosaic religion is nothing other than a doctrine for the preservation of the Jewish race. It therefore embraces almost all sociological, political, and economic fields of knowledge which can have any bearing on this function.

Page 152: A man does not die for business, but only for ideals.

Page 153: Never yet has a state been founded by peaceful economic means, but always and exclusively by the instincts of preservation of the species regardless whether these are found in the province of heroic virtue or of cunning craftiness; the one results in Aryan states based on work and culture, the other in Jewish colonies of parasites. As soon as economics as such, begins to choke out these instincts in a people or in a state, it becomes the seductive cause of subjugation and oppression.

Page 170: Conceptions and ideas, as well as movements with a definite spiritual foundation, regardless whether the latter is false or true, can, after a certain point in their development, only be broken with technical instruments of power if these physical weapons are at the same time the support of a new kindling thought, idea, or philosophy.

The application of force alone, without the impetus of a basic spiritual idea as a starting point, can never lead to the destruction of an idea and its dissemination, except in the form of a complete extermination of even the very last exponent of the idea and the destruction of the last tradition.

Page 180: The art of propaganda lies in understanding the emotional ideas of the great masses and finding, through a psychologically correct form, the way to the attention and thence to the heart of the broad masses. The fact that our bright boys do not understand this merely shows how mentally lazy and conceited they are.

Page 182: The function of propaganda is, for example, not to weigh and ponder the rights of different people, but exclusively to emphasize the one right which it has set out to argue for. Its task is not to make an objective study of the truth, in so far as it favors the enemy, and then set it before the masses with academic fairness; its task is to serve our own right, always and unflinchingly.

Page 183: The people in their overwhelming majority are so feminine by nature and attitude that sober reasoning determines their thoughts and actions far less than emotion and feeling.

And this sentiment is not complicated, but very simple and all of a piece. It does not have multiple shadings; it has a positive and a negative; love or hate, right or wrong, truth or lie, never half this way and half that way, never partially, or that kind of thing.

Page 185: The purpose of propaganda is not to provide interesting distraction for blase young gentlemen, but to convince, and what I mean is to convince the masses. But the masses are slow-moving, and they always require a certain time before they are ready even to notice a thing, and only after the simplest ideas are repeated thousands of times will the masses finally remember them.

Page 206: There is no making pacts with Jews; there can only be the hard: either--or.

Page 232: The foremost connoisseurs of this truth regarding the possibilities in the use of falsehood and slander have always been the Jews; for after all, their whole existence is based on one single great lie, to wit, that they are a religious community while actually they are a race--and what a race! One of the greatest minds of humanity has nailed them forever as such in an eternally correct phrase of fundamental truth: he called them 'the great masters of the lie'. And anyone who does not recognize this or does not want to believe it will never in this world be able to help the truth to victory.

Page 245: A man must never fall into the lunacy of believing that he has really risen to be lord and master of Nature--which is so easily induced by the conceit of half-education; he must understand the fundamental necessity of Nature's rule, and realize how much his existence is subjected to these laws of eternal fight and upward struggle. Then he will feel that in a universe where planets revolve around suns, and moons turn about planets, where force alone forever masters weakness, compelling it to be an obedient slave or else crushing it, there can be no special laws for man. For him, too, the eternal principles of this ultimate wisdom hold sway. He can try to comprehend them; but escape them, never.

Page 247: This Jewification of our spiritual life and mammonization of our mating instinct will sooner or later destroy our entire offspring, for the powerful children of a natural emotion will be replaced by the miserable creatures of financial expediency which is becoming more and more the basis and sole prerequisite of our marriages. Love finds its outlet elsewhere.

Page 283: For in the long run government systems are not maintained by the pressure of violence, but by faith in their soundness and in the truthfulness with which they represent and advance the interests of a people.

Page 284: Thus men without exception wander about in the garden of Nature; they imagine that they know practically everything and yet with few exceptions pass blindly by one of the most patent principles of Nature's rule: the inner segregation of the species of all living beings on this earth.

Page 286: No more than Nature desires the mating of weaker with stronger individuals, even less does she desire the blending of a higher with a lower race, since, if she did, her whole work of higher breeding, over perhaps hundreds of thousands of years, might be ruined with one blow.

Page 287: When man attempts to rebel against the iron logic of Nature, he comes into struggle with the principles to which he himself owes his existence as a man. And this attack must lead to his own doom.

Here, of course, we encounter the objection of the modern pacifist, as truly Jewish in its effrontery as it is stupid! 'Man's role is to overcome Nature!'

Millions thoughtlessly parrot this Jewish nonsense and end up by really imagining that they themselves represent a kind of conqueror of Nature; though in this they dispose of no other weapon than an idea, and at that such a miserable one, that if it were true no world at all would be conceivable.

Page 289: Those who want to live, let them fight, and those who do not want to fight in this world of eternal struggle do not deserve to live.

Even if this were hard--that is how it is! Assuredly, however, by far the harder fate is that which strikes the man who thinks he can overcome Nature, but in the last analysis only mocks her. Distress, misfortune, and diseases are her answer.

Page 293: The spark of genius exists in the brain of the truly creative man from the hour of his birth. True genius is always inborn and never cultivated, let alone learned.

Page 295: The progress of humanity is like climbing an endless ladder; it is impossible to climb higher without first taking the lower steps. Thus, the Aryan had to take the road to which reality directed him and not the one that would appeal to the imagination of a modern pacifist. The road of reality is hard and difficult, but in the end it leads where our friend would like to bring humanity by dreaming, but unfortunately removes more than bringing it closer.

Page 296: Blood mixture and the resultant drop in the racial level is the sole cause of the dying out of old cultures; for men do not perish as a result of lost wars, but by the loss of that force of resistance which is contained only in pure blood.

Page 318: The separation of worker and employer now seems complete in all fields of life. How far the inner Judaization of our people has progressed can be seen from the small respect, if not contempt, that is accorded to manual labor. This is not German. It took the foreignization of our life, which was in truth a Jewification, to transform the old respect for manual work into a certain contempt, for all physical labor.

Page 62: Whenever you tried to attack one of these apostles, your hand closed on a jelly-like slime which divided up and poured through your fingers, but in the next moment collected again. But if you really struck one of these fellows so telling a blow that, observed by the audience, he couldn't help but agree, and if you believed that this had taken you at least one step forward, your amazement was great the next day. The Jew had not the slightest recollection of the day before, he rattled off his same old nonsense as though nothing at all had happened, and, if indignantly challenged, affected amazement; he couldn't remember a thing, except that he had proved the correctness of his assertions the previous day.

Page 320: Thus there arises a pure movement entirely of manual workers under Jewish leadership, apparently aiming to improve the situation of the worker, but in truth planning the enslavement and with it the destruction of all non-Jewish peoples.

Page 324: While from innate cowardice the upper classes turn away from a man whom the Jew attacks with lies and slander, the broad masses from stupidity or simplicity believe everything. The state authorities either cloak themselves in silence or, what usually happens, in order to put an end to the Jewish press campaign, they persecute the unjustly attacked, which, in the eyes of such an official ass, passes as the preservation of state authority and the safeguarding of law and order.

The Jew's domination in the state seems so assured that now not only can he call himself a Jew again, but he ruthlessly admits his ultimate national and political designs. A section of his race openly owns itself to be a foreign people, yet even here they lie. For while the Zionists try to make the rest of the world believe that the national consciousness of the Jew finds its satisfaction in the creation of a Palestinian state, the Jews again slyly dupe the dumb Goyim.* It doesn't even enter their heads to build up a Jewish state in Palestine for the purpose of living there; all they want is a central organization for their international world swindle, endowed with its own sovereign rights and removed from the intervention ot other states: a haven for convicted scoundrels and a university for budding crooks.

* Yiddish for Gentiles.

Page 325: For a racially pure people which is conscious of its blood can never be enslaved by the Jew. In this world he will forever be master over bastards and bastards alone.

**Page 326: Now begins the great last revolution. In gaining political power the Jew casts off the few cloaks that he**

still wears. The democratic people's Jew becomes the blood-Jew and tyrant over peoples. In a few tears he tries to exterminate the national intelligentsia and by robbing the peoples of their natural intellectual leadership makes them ripe for the slave's lot of permanent subjugation.

The most frightful example of this kind is offered by Russia where he killed or starved about thirty million people with positively fanatical savagery, in part amid inhuman tortures, in order to give a gang of Jewish journalists and stock exchange bandits domination over a great people.

The end is not only the end of the freedom of the peoples oppressed by the Jew, but also the end of this parasite upon the nations. After the death of his victim, the vampire sooner or later dies too.

Page 327: Everything on this earth is capable of improvement. Every defeat can become the father of a subsequent victory, every lost war the cause of a later resurgence, every hardship the fertilization of human energy, and from every oppression the forces for a new spiritual rebirth can come--as long as the blood is preserved pure.

Page 332: Consequently the question of regaining German power is not: How shall we manufacture arms? but: How shall we manufacture the spirit which enables a people to bear arms? If this spirit dominates a people, the will finds a thousand ways, every one of which ends in a weapon! But give a coward ten pistols and if attacked he will not be able to fire a single shot. And so for him they are more worthless than a knotted stick for a courageous man.

Page 337: Poison is countered only by an antidote, and only the shallowness of a bourgeois mind can regard the middle course as the road to heaven.

Page 338: Anyone who wants to win the broad masses must know the key that opens the door to their heart. Its name is not objectivity (read weakness), but will and power.

Page 338 Cont.: The broad masses are only a piece of Nature and their sentiment does not understand the mutual handshake of people who claim that they want the opposite things. What they desire is the victory of the stronger and the destruction of the weak or his unconditional subjection.

In the blood alone resides the strength as well as the weakness of man. As long as peoples do not recognize and give heed to the importance of their racial foundation, they are like men who would like to teach poodles the qualities of greyhounds, failing to realize that the speed of the greyhound like the docility of the poodle are not learned, but are qualities inherent in the race. Peoples which renounce the preservation of their racial purity renounce with it the unity of their soul in all its expressions. The divided state of their nature is the natural consequence of the divided state of their blood, and the change in their intellectual and creative force is only the effect of the change in their racial foundations.

Page 341: But winning over the bourgeois voting cattle can never be the aim of this movement. If it were, it would burden itself with a dead weight which by its whole nature would paralyse our power to recruit from the broad masses.

If propaganda is to be effective for the movement, it must be addressed to only one quarter, since otherwise, in view of the difference in the intellectual training of the two camps in question, either it will not be understood by the one group, or by the other it would be rejected as obvious and therefore uninteresting.

Page 342: In a mass meeting of all classes it is not that speaker who is mentally closest to the intellectuals present who speaks best, but the one who conquers the heart of the masses.

A member of the intelligentsia present at such a meeting, who carps at the intellectual level of the speech despite the speaker's obvious effect on the lower strata he has set out to conquer, proves the complete incapacity of his thinking and the worthlessness of his person for the young movement. It can use only that intellectual who comprehends the task and goal of the movement to such an extent that he has learned to judge the activity of propaganda according to its success and not according to the impressions which it leaves behind in himself. For propaganda is not intended to provide entertainment for people who are national-minded to begin with, but to win the enemies of our nationality, in so far as they are of our blood.

Page 345: Anyone who is not equal to this or is too cowardly to bear the consequences of his acts is not fit to be leader; only the hero is cut out for this.

The progress and culture of humanity are not a product of the majority, but rest exclusively on the genius and energy of the personality.

**Page 351: The greatness of every mighty organization embodying an idea in this world lies in the religious fanaticism and intolerance with which, fanatically convinced of its own right, it intolerantly imposes its will against all others. If an idea in itself is sound and, thus armed, takes up a struggle on this earth, it is unconquerable and every persecution will only add to its inner strength.**

Page 351: Any man who is not attacked in the Jewish newspapers, not slandered and vilified, is no decent German and no true National Socialist. The best yardstick for the value of his attitude, for the sincerity of his conviction, and the force of his will is the hostility he receives from the mortal enemy of our people.

Page 351 Cont.: It must, over and over again, be pointed out to the adherents of the movement and in a broader sense to the whole people that the Jew and his newspapers always lie and that even an occasional truth is only intended to cover a bigger falsification and is therefore itself in turn a deliberate untruth. The Jew is the great master in lying, and lies and deception are his weapons in struggle.

Every Jewish slander and every Jewish lie is a scar of honor on the body of our warriors.

The man they have most reviled stands closest to us and the man they hate worst is our best friend.

Anyone who picks up a Jewish newspaper in the morning and does not see himself slandered in it has not made profitable use of the previous day; for if he had, he would be persecuted, reviled, slandered, abused, befouled. And only the man who combats this mortal enemy of our nation and of all Aryan humanity and culture most effectively may expect to see the slanders of this race and the struggle of this people directed against him.

Page 353: When human hearts break and human souls despair, then from the twilight of the past the great conquerors of distress and care, of disgrace and misery, of spiritual slavery and physical compulsion, look down on them and hold out their eternal hands to the despairing mortals!

Woe to the people that is ashamed to take them!

Page 357: Terror is not broken by the mind, but by terror.

Page 363: The fact that in a public meeting a Demosthenes can be brought to silence if only fifty idiots, supported by their voices and their fists, refuse to let him speak, makes no impression whatever on such a quack.

Page 380: Every philosophy of life, even if it is a thousand times correct and of highest benefit to humanity, will remain without significance for the practical shaping of a people's life, as long as its principles have not become the banner of a fighting movement which for its part in turn will be a party as long as its activity has not found completion in the victory of its ideas and its party dogmas have not become the new state principles of a people's community.

Page 383: In opposition to this, the folkish philosophy finds the importance of mankind in its basic racial elements. In the state it sees on principle only a means to an end and construes its end as the preservation of the racial existence of man. Thus, it by no means believes in an equality of the races, but along with their difference it recognizes their higher or lesser value and feels itself obligated, through this knowledge, to promote the victory of the better and stronger, and demand the subordination of the inferior and weaker in accordance with the eternal will that dominates this universe. Thus, in principle, it serves the basic aristocratic idea of Nature and believes in the validity of this law down to the last individual. It sees not only the different value of the races, but also the different value of individuals. From the mass it extracts the importance of the individual personality, and thus, in contrast to disorganizing Marxism, it has an organizing effect. It believes in the necessity of an idealization of humanity, in which alone it sees the premise for the existence of humanity. But it cannot grant the right to existence even to an ethical idea if this idea represents a danger for the racial life of the bearers of a higher ethics; for in a bastardized and niggerized world all the concepts of the humanly beautiful and sublime, as well as all ideas of an idealized future of our humanity, would be lost forever.

Page 393: The state is a means to an end. Its end lies in the preservation and advancement of a community of physically and psychically homogeneous creatures. This preservation itself comprises first of all existence as a race and thereby permits the free development of all the forces dormant in this race. Of them a part will always primarily serve the preservation of physical life, and only the remaining part the promotion of a further spiritual development. Actually the one always creates the precondition for the other.

States which do not serve this purpose are misbegotten, monstrosities in fact. The fact of their existence changes this no more than the success of a gang of bandits can justify robbery.

Page 399: What, therefore, may appear as a difficulty today is in reality the premise for our victory. Precisely in the greatness and the difficulties of our task lies the probability that only the best fighters will step forward to struggle for it. And in this selection lies the guaranty of success.

Page 402: No, there is only one holiest human right, and this right is at the same time the holiest obligation, to wit: to see to it that the blood is preserved pure and, by preserving the best humanity, to create the possibility of a nobler development of these beings.

A folkish state must therefore begin by raising marriage from the level of a continous defilement of the race, and give it the consecration of an institution which is called upon to produce images of the Lord and not monstrosities halfway between man and ape.

Page 403: It must set race in the center of all life. It must take care to keep it pure. It must declare the child to be the most precious treasure of the people. It must see to it that only the healthy beget children; that there is only one disgrace: despite one's own sickness and deficiencies, to bring children into the world, and one highest honor: to renounce doing so. And conversely it must be considered reprehensible: to withhold healthy children from the nation. (To be continued next issue).
